1. Extension Installation Guide

- Go to My downloadable products. The file that you download normally is a zip file.
- Use FTP client (such as Filezilla, WinSCP, cuteFtp) to upload or copy all folders in the zip package to your Magento site root folder. This will not overwrite any existing files, just add new files to the folder structure.
- Open Command line in folder root of Magento and run following command respectively:
 - `php bin/magento setup:upgrade`
 - `php bin/magento setup:static-content:deploy`
 - `php bin/magento indexer:reindex`
 - `php bin/magento cache:flush`
- Navigate to Stores/Configuration, if you can see the extension tab, it is installed properly.
- If you need professional help regarding [Magento Extension Installation](#), Feel free to contact us any time.

2. Configuration

Once you have successfully installed the extension, go to **Stores** → **Configuration** to configure the extension for use.

- **GeoIP Currency Switcher:** Enable or disable extension from here.
- **Switch Currency Manually:** Turn this option on if you want to allow your customer to manually switch currency from the store frontend.
- **GeoIP Database Download History:** This option will allow you to download New database and sync with official Maxmind GeoIP Database automatically.

Configuration

Store View: Default Config ? Save Config

GeoIP Currency Switcher

GeoIP Currency Switcher [store view] Enable extension from here

Switch Currency Manually [store view] Option to enable manual currency switch from the frontend

GeoIP Database Download History [store view] Magecomp/Geocurrencystore/view/frontend /web/database/geoip/GeoIP.dat was last modified: November 19 2018 07:44:41.

Click to synchronize database from maxmind

If you keep synchronizing GeoIP database too often, you may be banned from it for several hours.

3. Frontend

Once the extension is configured, it detects Geo locations of various IPs of the visitors and automatically switches currency.

4. Deactivation of Extension in Case of Emergency

Go to `app` → `etc` → `config.php` and find '`Magecomp_Geocurrencystore`' => `1`, and replace `1` with `0`.

If something goes wrong, please contact us at support@magecomp.com

5. FAQs

- **What if I get “Access denied” error after installation of the extension?**

Whenever you get Access denied error while clicking on the extension tab after installation, log out admin panel and re-login.

Thank You!
