2. HDFC Payment Gateway in Frontend

Once you have successfully configured HDFC Payment Gateway, you can see it enabled in frontend.

The screenshot displays the LUMA checkout interface. At the top left is the LUMA logo. A progress bar shows two steps: 'Shipping' (completed, grey) and 'Review & Payments' (active, orange). A callout box points to the 'Review & Payments' step, stating 'HDFC payment method in frontend'. Below the progress bar, the 'Payment' section is visible. The 'HDFC' payment method is selected and highlighted with an orange box. Below it, a checkbox labeled 'My billing and shipping address are the same' is checked. A 'Place Order' button is located at the bottom right of the page.

- Once you place order, it will redirect you to HDFC Payment Gateway where you are asked to enter payment details. Click next to go further.

4. Deactivation of Extension in Case of Emergency

- Go to `app` → `etc` → `config.php` and find '`Magecomp_Hdfc`' => `1`, and replace `1` with `0`.

If something goes wrong, please contact us at support@magecomp.com

- If extension is installed using composer from Magento Marketplace, then you can disable the extension by running below command.

```
bin/magento module:disable Magecomp_Hdfc
```
