1. Extension Installation Guide

- Go to My downloadable products. The file that you download normally is a zip file.
- Use FTP client (such as Filezilla, WinSCP, cuteFtp) to upload or copy all folders in the zip package to your Magento site root folder. This will not overwrite any existing files, just add new files to the folder structure.
- Open Command line in folder root of Magento and run following command respectively:
 - `php bin/magento setup:upgrade`
 - `php bin/magento setup:static-content:deploy`
 - `php bin/magento indexer:reindex`
 - `php bin/magento cache:flush`
- Navigate to Stores/Configuration, if you can see the extension tab, it is installed properly.
- If you need professional help regarding [Extension Installation](#), Feel free to contact us any time.

2. Configuration

Once you have successfully installed the extension, go to **Stores → Configuration** to configure the extension for use. Here you can find setting to enable or disable the extension.

The screenshot shows the Magento Configuration interface. At the top, there is a search icon, a notification bell with a red '5', and a user profile icon labeled 'admin'. Below this, the 'Store View' is set to 'Default Config'. A 'Save Config' button is visible in the top right. The left sidebar shows the 'GENERAL' tab selected, with the 'MageComp' extension tab highlighted. The main content area shows the 'Configuration' section for 'Hide Price [store view]', which is currently set to 'Enable'. An orange callout box with an arrow points to the dropdown menu, containing the text 'Enable or disable extension from here'. Another orange box highlights the 'Hide Price' label in the left sidebar.

3. Hide Price Settings

Once you enable the extension, go to Hide Price options where you can find various settings for Hide Price button and form.

- **Button Text** – Enter text for Hide Price button on frontend.
- **Customer Groups** – Select customer groups to enable the extension for.
- **Choose Redirect Link** – Select pages to redirect customers to the page on click of hide price button from frontend.

Hide Price Settings

5. Deactivation of Extension in Case of Emergency

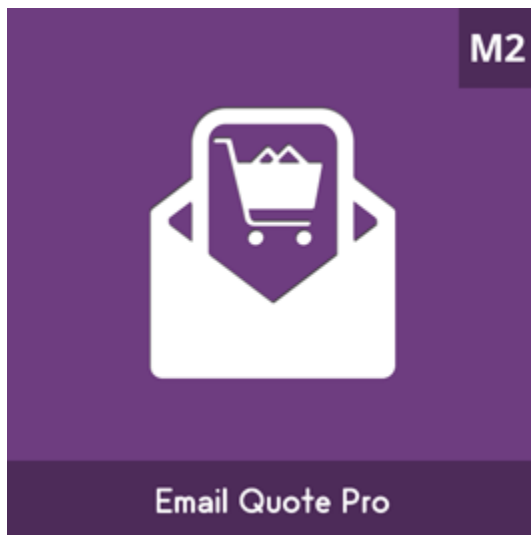

- Go to `app` → `etc` → `config.php` and find '`Magecomp_Hideprice`' => **1** and replace 1 with 0.
- If something goes wrong, please contact us at <https://magecomp.com/support/> or send us an email at helpdesk@magecomp.com

6. FAQs:

- **What if I get “Access denied” error after installation of the extension?**
Whenever you get Access denied error while clicking on the extension tab after installation, log out admin panel and re-login.

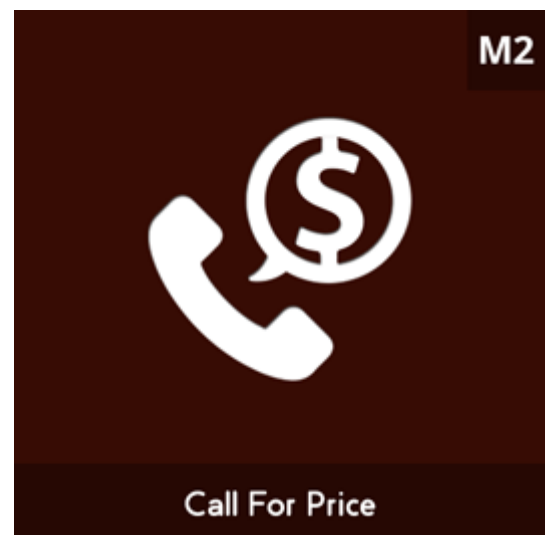

Thank You!
