

## Advanced Search Extension for Magento 2

Advanced Search extension for Magento 2 enables your users to make good use of your website's products by easy searching and browsing in a neat interface, thus creating a win-win situation for you and your members.

The extension also increases user engagement and user retainment by making search convenient across your website's products. Features like powerful search, auto-suggesting of search results, advanced searching and more, make this a valuable extension for your website.

### Features

- An Attractive Advanced Search Box that intelligently auto-suggests search results.
- Use of AJAX and various effects for good interactivity and user experience
- Easy configuration
- Customizable auto-suggest popup. You can include product details like product image, SKU, price, reviews and ratings, etc. in the auto-suggest popup.
- Display “Add to cart” button right in the search results.
- Each search result in the auto-suggest is a link that enables user to directly go to the product main page.

### Installation:

The steps for installing the theme on your Magento site are:

1. Download the extension from your account
2. Unzip the file
3. Create a folder {Magento 2 root}/app/code
4. Copy the content from the unzipped folder

### Configuration:

After the extension is installed, you can configure it in just a few steps. Please go to your Magento Admin panel to do so.

## AutoSuggest Configuration
