Answer

We go live with offers 3 times a year. That is christmas, halloween and black friday. On these festivals you will get maximum discounts and variety of offers. We also give 5% or 10% discount on majority of products throughout the year.

Enable/Disable rule: Set whether to display question on frontend or not. Only enabled questions will be listed at frontend, if customers asked such question, that merchant don't want to list on frontend. Merchant can reply to customer question but will kept it as disable so question wouldn't be visible on site.

Question: Question for FAQ or product page.

Tags: Define tags of the question. This tags would get displayed on frontend which would help users to narrow down the search.

Question Type: question type can be Product Question, Generic FAQ or both.

Product Question: this question will only listed on product page for which products are selected. One question can be assign to multiple products. Refer screenshot below,

Generic FAQ: If question is created for site FAQ only, you have to select FAQ category for question to show question.

Both: This will allows you to create question for product as well as generic FAQs. So the question will be listed on both.

Category: Select category if question belongs to generic question type or lies under both question type.

Sort Order: Define sort order to show question in sequence on FAQ page or on product question list.

Store View: You can prevent questions to be visible for selected store views only.

Answer: Answer for the question. If question is asked by customer, there will be an option to send reply to customer. That will send email to customer with updated answer.

Like: Set number of likes (this counter increases automatically as user clicks on Like button from front-end)

Dislike: Set number of likes (this counter increases automatically as user clicks on Dislike button from front-end)

Most viewed: Set question as most viewed. This would display question under “Most frequently asked question” on generic FAQ page.

Question Author

Notify customer by email: On answering, notify customer by email

Created By: Provide name of person who has created question

Author Name: Provide name of person who is answering

Author Email: Email of person who is answering

Q&A Detail page

Do you offer same day delivery?

Yes, we have same day delivery options available for some of the products.

You will automatically find that option on cart page or while filling order and shipping information.

You might find extra charges option of those products, but it depends on the work load of our delivery staff (charges would be very nominal).
