

Shop By Look – M2

USER MANUAL

MAGEDELIGHT.COM

E: SUPPORT@MAGEDELIGHT.COM

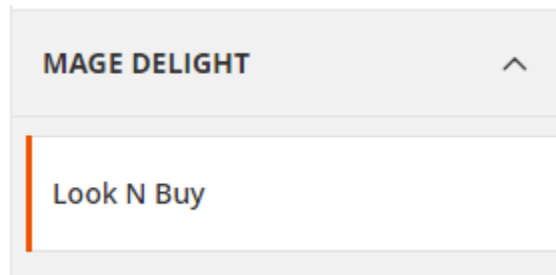

Introduction

This extension helps Ecommerce Magento merchants to generate more revenue by up selling/group selling related complimentary products particularly fashion & apparels, furniture. Shop by look also helps customer to shop complete matching look. It reduces customer stress to match product and shop them individually.

License Key

After successfully installing the Shop by look extension on your Magento store, First of all you required to configure license key within the admin configuration section. You can set it from:

Admin > Stores > Configuration > Mage Delight > Look N Buy > License Configuration. As shown in screenshot below,

You would find two text-boxes, asking for Serial Key and Activation Key. You can find this in the email you obtained on the purchase of the extension. See the screenshot below:

General

Look Title: Set the title of look you are creating.

URL key: You can set SEO friendly URL of look page.

Base Image: Upload main image of look, based on which you will be creating a look.

Discount type: Here, you can define type of discount, if customer purchase whole look. This can be Fixed or Percentage.

Discount: Discount amount based on discount type. If you have set discount type to percentage, discount will be applied on total cost of look else it will be fixed amount of discount.

Status: You can disable a look here.

Layout: It provides two type of layout for look, 1 column and 2 columns. You can select layout for your looks based on Base image of look.

If your design is horizontally broader, you can select 1 column layout. With this, image will be displayed horizontally covering full page size, following with products of look.

If you set to two-column, look image will listed on left side where as all products will be listed on right hand size of the page.

Description: You can describe the look you are creating.

Meta Data

Keyword: Here you can set Meta keywords for particular look detail page.

Description: Set Meta description for look detail page.
