

Advanced Layered Navigation - Magento 2

USER MANUAL

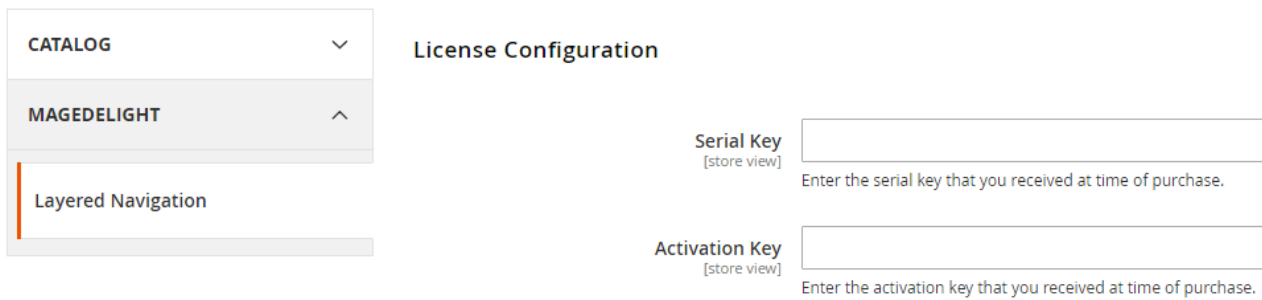

MAGEDELIGHT.COM

License Key

After successful installation of Advanced Layered Navigation Magento 2 extension by using the Magento setup, you are now require to configure the license key in the admin configuration section. You can set it from here:

Admin Control Panel > Advanced Layered Navigation > Configuration > Magedelight > Advanced Layered Navigation > License Configuration. As shown in screenshot below:

You will find two text boxes asking for Serial Key and Activation Key, which you can find in the email you received upon the purchase of extension. See screenshot below:

The screenshot shows the 'License Configuration' page in the Magento 2 admin panel. On the left is a navigation menu with 'CATALOG' (expanded), 'MAGEDELIGHT', and 'Layered Navigation'. The main content area is titled 'License Configuration' and contains two text input fields. The first is labeled 'Serial Key [store view]' with a sub-label 'Enter the serial key that you received at time of purchase.' The second is labeled 'Activation Key [store view]' with a sub-label 'Enter the activation key that you received at time of purchase.'

Backend (Admin side) Advanced Layered Navigation

Advanced Layered Navigation General Configuration

You can configure Advanced Layered Navigation extension through configuration section, Admin Control Panel >Advanced Layered Navigation > Configuration > Magedelight > Advanced Layered Navigation.

General Configuration

Enable [store view]	Yes
Select filters for expand [store view]	<div style="border: 1px solid #ccc; padding: 5px;"><ul style="list-style-type: none">ActivityCategory GearClimateCollarColorFeaturesFormatGenderManufacturerMaterial</div>
	Selected filters expanded
Add vertical scrolling to filter blocks higher than (size in pixels) [store view]	300 Sets maximum box height in px
Submit Filters [store view]	Instantly

General: Enable/disable the Advanced Layered Navigation on frontend

Select Filters For Expand: Select the filters from given default list to display on front end. These filters would remain expanded in navigation side bar by default.

Add Vertical Scrolling to Filter Blocks Higher Than: Set the size of filter options (vertically). If options occupies more size than specified then scroll bar will appear.

Submit Filters: two ways admin can allow users to get the filtered result on front end.

Instantly: This will display the filtered result as soon as user selects the option from navigation bar.

Button Click: Once user finishes the filter selection then on clicking submit button, the filtered products will get displayed.
