INSTALLATION GUIDE

MAGEDELIGHT.COM
EMAIL: SUPPORT@MAGEDELIGHT.COM

Installation:

Before installing the extension, please make below notes complete:

- Backup your web directory and store database.

RMA Installation:

- Unzip the extension package file into the root folder of your Magento 2 installation.
- If you are using **Magento 2.2** or above version then please follow the below steps:
  - Go to folder "**patch**" **-> 2.2.X ->** copy all files from it
  - Then overwrite (Paste) all the files in installed extension's "**app**" folder
- Connect to SSH console of your server:

  - Navigate to root folder of your Magento 2 setup
  - Run command
    ```
    php -f bin/magento module:enable Magedelight_Rma
    ```
  - Run command
    ```
    php -f bin/magento setup:upgrade
    ```
  - Run command
    ```
    php -f bin/magento setup:static-content:deploy
    ```

Flush store cache; log out from the backend and log in again

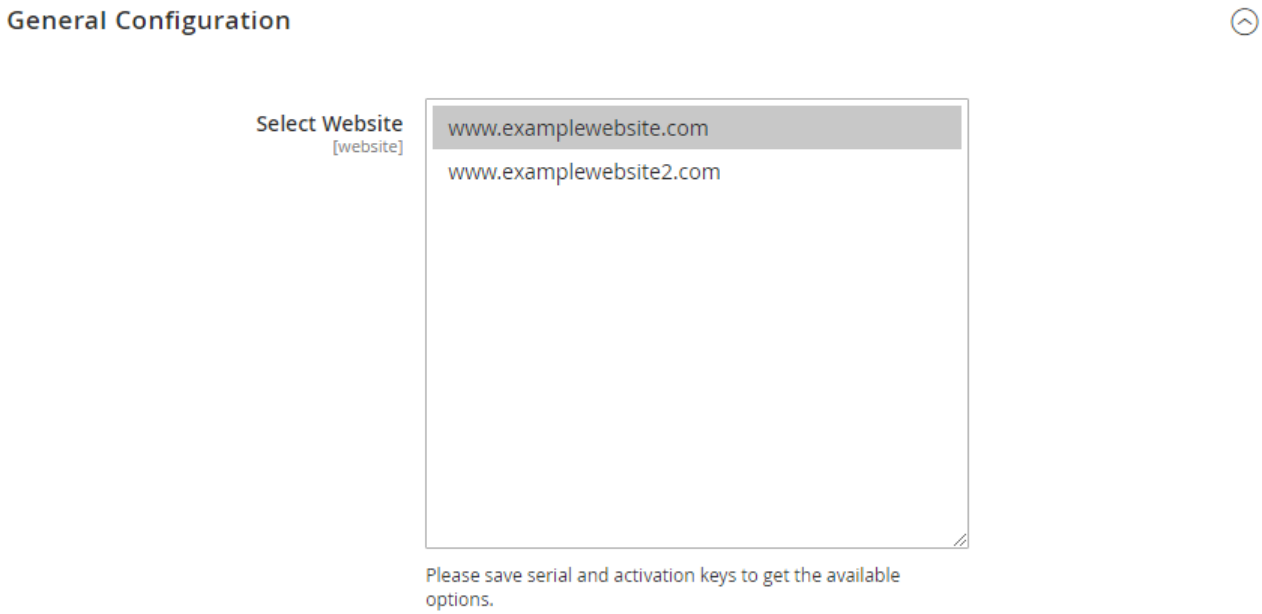
License Activation:

How to activate the extension?

Step 1: Go to **Admin Control Panel >RMA > Settings > License Configuration** or **Admin Control Panel >Stores > Configuration > Magedelight > RMA -> License Configuration**, You will see Serial Key and Activation key fields in License Configuration, Enter the keys you received on purchase of the product and click on button **"save Config"** as below,

COPYRIGHT 2017 MAGEDELIGHT.COM

Step 2: Expand "General Settings" tab, you will find list of domains for which license is purchased and configured, now select the domain you are going to use, you can select multiple domain by clicking "Ctrl + Select".



Step 3: Now, select **"Yes"** from **"Enable Module"** to **enable extension** and again click on **"Save Config"** button on top right.
