

# Social Media Login – M2

---

USER MANUAL

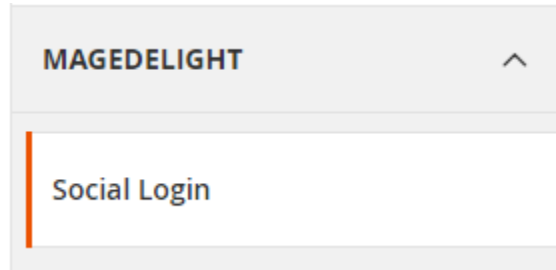

MAGEDELIGHT.COM

E: SUPPORT@MAGEDELIGHT.COM

## License Key

After successfully installing the Store Pickup extension on your Magento store, First of all you required to configure license key within the admin configuration section. You can set it from:

**Admin > Stores > Configuration > Mage Delight > Social login > License Configuration** as shown in screenshot below,

You would find two text-boxes, asking for Serial Key and Activation Key. You can find this in the email you obtained on the purchase of the extension. See the screenshot below:

Customer Name	Customer Email	Registration Date	Social Site
John Smith	john_smith@example.com	2017-04-05 05:39:57	Facebook
Veronica Costello	roni_cost@example.com	2017-04-05 09:22:46	Google
Samentha	samentha@example.com	2017-04-06 05:24:49	Linkedin
Rick Johnson	rick_johnson@example.com	2017-04-25 09:43:32	Twitter

Go to admin panel and then Reports -> Magedelight Social Login Reports to view how many customers have logged in to the store using their social media.

**Select Social Login:** Select the type of social media for which you want to see the report. This would display users logged in using selected social media.

**Registered From and Registered To:** Select the time period for which you want to see the report.

**Show SocialLogin Report:** Click on Show SocialLogin Report button to generate the report.

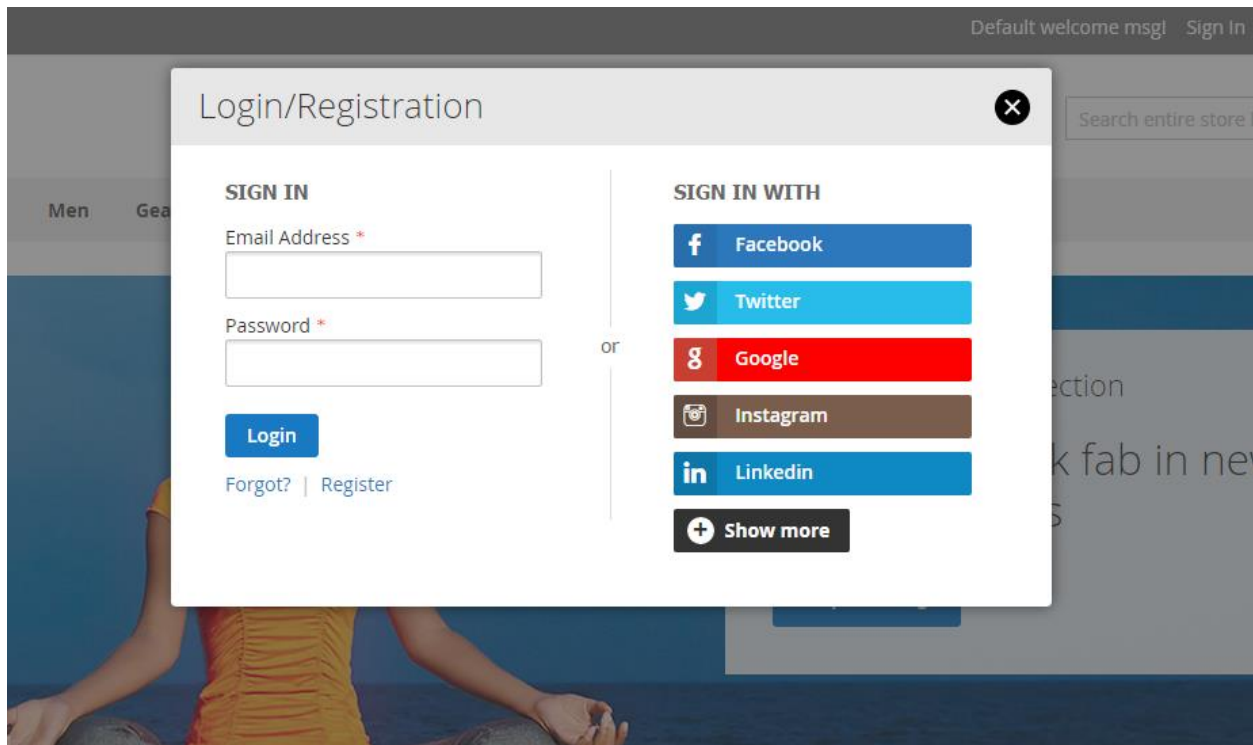

**Export to:** Select the file type (CSV or Excel XML) to export the report to.

## Frontend

Once you configured the extension and enables desired social media login options, login and registration link will be replaced with pop-up. Along with login form, there would be all available social media login options for direct login/register with your website.

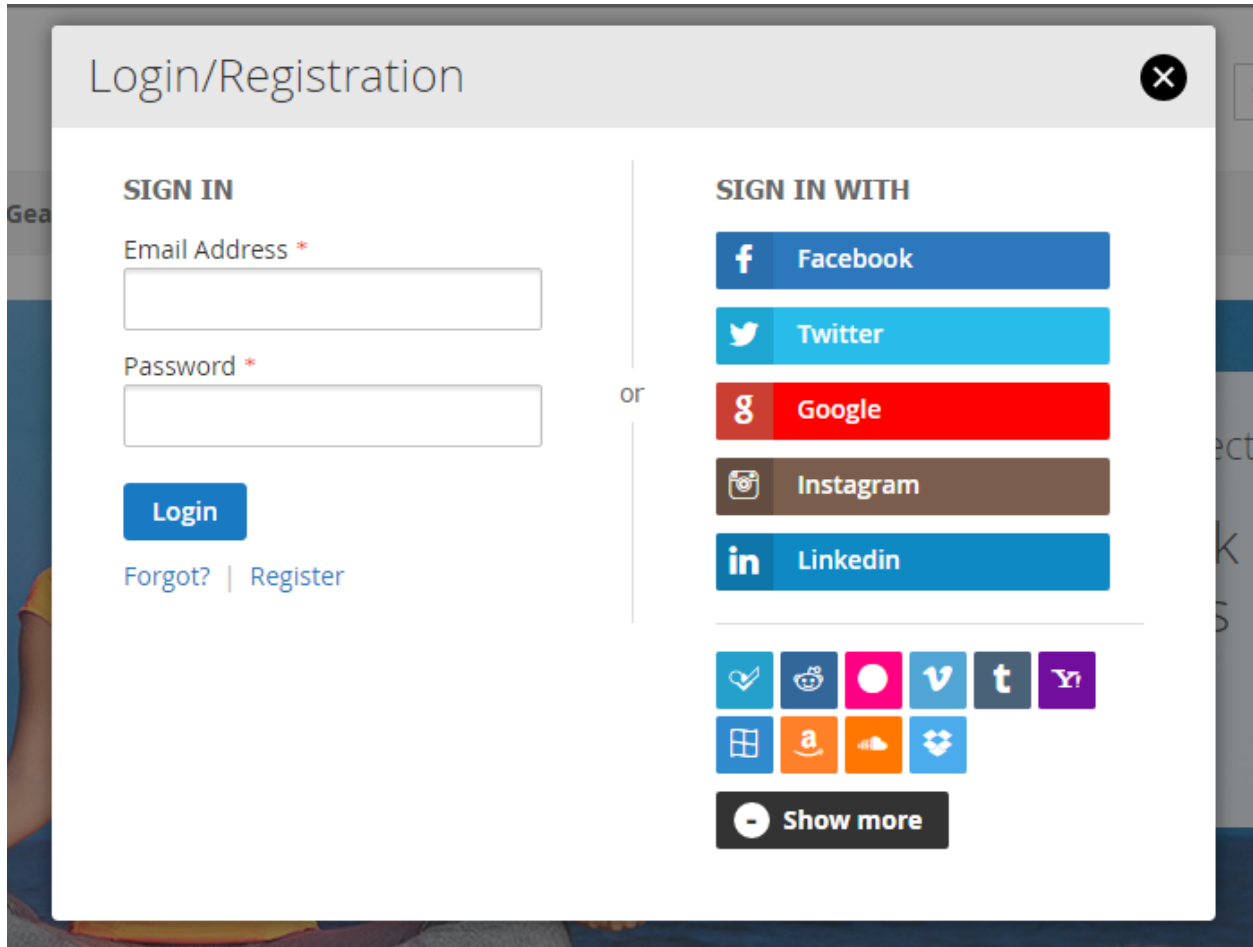

All enabled social media options would be available on login/registration pop-up window as show with below images,

1. Login option with limited text.

2. Login option with all available login options
