

Product Scheduler

We are so glad to have your interest! This guide is here to provide some specific information to help you install the extension.

Command line installation

1. Please ensure you are using correct access keys ([My Profile - Access Keys](#))
2. Paste the access keys in your auth.json file inside your project
3. Connect via SSH console to your Magento server, navigate to the Magento root directory and run the following commands:

```
composer require magediary/module-product-scheduler
php bin/magento module:enable Magediary_ProductScheduler
php bin/magento setup:upgrade
php bin/magento cache:flush
php bin/magento setup:static-content:deploy
```

1. Log out from the Magento admin and log in again
2. Product Scheduler extension is now installed and ready for work
