Create a new App ID

This will create a popup box will prompt you to enter two things:

- A display name. This is the app name used when stories are published to Facebook and in a number of other places. Use *Open Graph Getting Started* or something similar.
- A namespace. Not required for this guide so just leave it blank.
- A category. This will determine the kind of app that you're building. For now, just select *Communication*.

Once you've created your app you'll be provided with a dashboard that shows User and API Stats. From this screen, click on *Settings* on the left.

Complete the following fields, as shown in the screenshot below:

- Contact Email. Your developer email address.
- App Domains. The domain that your app will be hosted on (without the http:// or https:// prefix.)

In this screen click to “Create a new App ID”, a popup will be opened, enter “Display Name” & “Namespace” & “Choose a Category” and click to “Create App ID”

What is Lorem Ipsum?

Create by :[Angela](#), Date: 2017-01-13 09:55:26

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.
