Overview

The extension creates promotion banners. Each Banner consists of an image and a promotion block. A promotion block helps describing a product or an offer featured on your banner. Banners are assembled in a Group. The Promotion Banner extension allows placing banners at any page using Magento widgets.

Promotion Banner introduces its sections under **Content > Promotion Banner** menu. The extension comes with 2 sections:

- **Manage Groups** - allows administrator to create banner groups
- **Manage Banners** - allows administrator to create banners

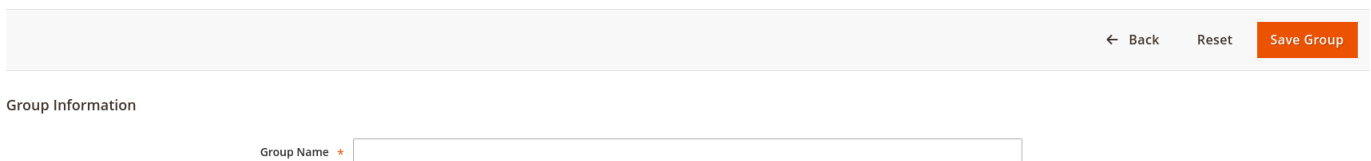

Manage Groups

To create a group navigate to **Content > Promotion Banner > Manage Groups** section.

The screenshot shows the Manage Groups interface. At the top right, there is an orange button labeled "Add New Group". Below this, there is a search bar with a "Search" button, a "Reset Filter" link, and the text "1 records found". To the right of the search bar, there is a pagination control showing "20" per page, "1" of 1, and navigation arrows. Below the search bar, there is a table with a header row labeled "Group Name" and a single row containing the text "Christmas banners".

To create a Group click **Add New Group** button.

The screenshot shows the "Add New Group" form. At the top right, there are three buttons: "Back", "Reset", and "Save Group". Below these buttons, the section is titled "Group Information". There is a single form field labeled "Group Name" with a red asterisk indicating it is required.

The New Group screen is represented with one settings block: Group Information.

Group Information

This screen allows store administrator to name the Group. The following settings are available:

- **Group Name** - defines the name of the banner group.

Manage Banners

To create a banner navigate to **Content > Promotion Banner > Manage Banners** section.
