

Magenerds_GermanLaw

This extension provides basic configurations for your Magento store in order to be ready for the german market. It includes many system configuration settings, tax configuration as well as cms pages for legal information. It also shows legal notices for shipping costs after every price.

Extension activation

At any time you can enable and disable this extension in the system configuration. You can do this by opening the backend menu `Stores > Configuration`. There you will find the entry `Magenerds > GermanLaw`. After clicking on it you see a dropdown box where you can enable/disable the module. Save the configuration and delete the cache.

The screenshot shows the Magento configuration interface. On the left is a sidebar menu with categories: GENERAL, CATALOG, CUSTOMERS, SALES, MAGENERDS, and Germany. The 'MAGENERDS' category is expanded, showing the 'General' section. In the 'General' section, there is a field labeled 'Enable module' with a dropdown menu set to 'Yes'. To the right of this field is a link labeled '[STORE VIEW]'. Below the 'General' section is the 'Price display' section, which is currently empty.

Extension configuration

You can configure the shipping notice either to be displayed after every price directly or in the footer whereas there is an asterisk (*) behind every price referencing to the footer. Go to `Stores > Configuration` and `Magenerds > GermanLaw` and then to Price display. There you can choose if you use the asterisk or not:

GENERAL	▼	General
CATALOG	▼	Price display
CUSTOMERS	▼	
SALES	▼	
MAGENERDS	▲	
Germany		
SERVICES	▼	
ADVANCED	▼	

Use asterisk (*) behind price	<input type="text" value="No"/>	[STORE VIEW]
	If yes an asterisk is displayed after the price and the tax/shipping information is in the footer, otherwise tax/shipping information is displayed after the price.	
Tax text	<input type="text" value="Inkl. %s MwSt., zzgl. [Versand]"/>	[STORE VIEW]
	Use %s in order to insert tax. Use [before and] after the word you want to use as link to the shipping page	
Shipping page	<input type="text" value="Versandkosten"/>	[STORE VIEW]
	Select the CMS page which you want to use to link to.	

You can also define the tax and shipping text being displayed. Therefore you can use %s in order to define the tax amount in the text. For defining the link to the shipping page you can use [and] before and after the word you want to use as a link.

Example: Inkl. %s MwSt., zzgl. [Versand] will lead to Inkl. 19% MwSt., zzgl. Versand whereas Versand is the link to the shipping page.

The last configuration setting is the selected cms page which is the shipping page you want to link to.

Installed CMS Pages

This extension installs 5 cms pages during installation:

- AGB
- Widerrufsbelehrung
- Impressum
- Versandkosten
- Datenschutzbestimmung

The cms pages have dummy content so you should fill them if you use them. The german law says you have to use them :-)

Tax configuration

This extension installs the two german tax rates:

- 7%

- 19%

You can select them if you edit a product in the backend under Product details:

Product Details

Name *	<input type="text" value="Joust Duffle Bag"/>
SKU *	<input type="text" value="24-MB01"/>
Price *	<input type="text" value="€ [Inc. Tax] 34.00"/>
Tax Class	<div style="border: 1px solid #ccc; padding: 5px; background-color: #f0f0f0;"><p>None</p><p>✓ Taxable Goods</p><p>7% MwSt</p><p>19% MwSt</p></div>

System configuration

This extensions configures the system so that the store is ready for the german market. In detail the settings are as follows:
