Introduction

Subscriptions and Recurring Payments extension for Magento 2 allows merchants to create and manage subscription plans, subscription payments.

Magento 2 Subscriptions and Recurring Payments Extension provides all options for merchants to configure subscription products such as magazines, newspapers, newsletters, or memberships, etc. All things become easy and simple with this extension. It helps customers save time to buy products from a repeating order process. And you will no longer need to invoice your individual customers for each payment. Therefore, it is one of the most helpful solutions.

Features for admin

- Create and manage subscription plans
- Assign subscription plans to product(s)
- Track the subscription payments of each customer
- Cancel the subscription manually from the admin panel
- Enable/Disable Trial Subscription (Trial Billing Amount, Trial Billing Cycles, Enable Initial Fee)
- Customer Can Define Start Date provides merchants options to set whether the customer can define the start subscription date or not.
- Display subscription plan with multiple styles: Drop-down list, Radio button, Selection box

Features for customers

- Create and manage subscription plans
- Assign subscription plans to product(s)

Payment Methods

Subscriptions and Recurring Payments extension support the following payment methods:

- PayPal Express Checkout.
- Stripe Card Direct **(NEW)**.

System Requirements

- Your store must be running on Magento CE&EE version **2.1.x, 2.2.x; 2.3.x**.
- Magenest Stripe Payment extension for Stripe Card integration.

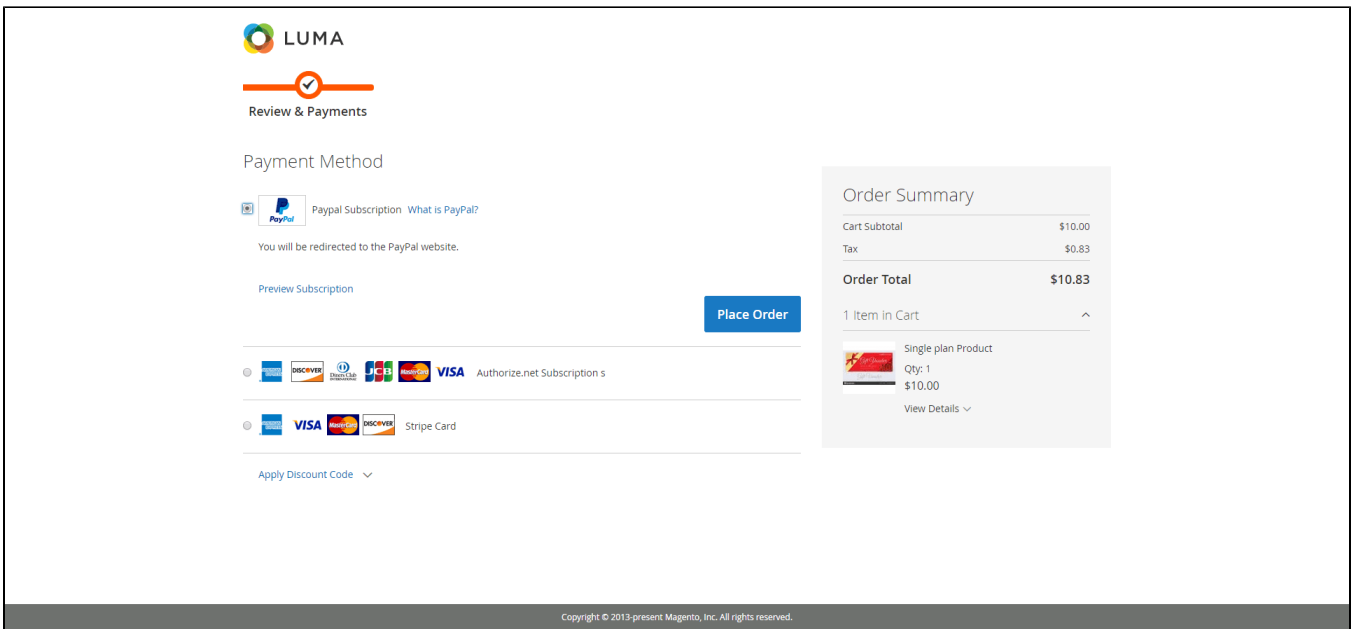

Configuration

Paypal Configuration

First, you must set up the Paypal payment method in Magento 2.

In the admin panel, go to **Configuration > Sales > Payment Methods > Recommended Solutions** then click on **Configure** button in Paypal Express Checkout.

- Enter your Email Associated with PayPal Merchant Account
- Select API Signature in API Authentication Methods
- Enter API Username, API Password, and API Signature associated with your PayPal account. To get your Paypal Credentials, click on Get Credentials from the Paypal button, to get sandbox credentials, click on the Sandbox Credentials button
- Enable Sandbox Mode if you are using a sandbox PayPal account. Disable Sandbox Mode if you go live
- Choose Yes in the Enable this Solution field to enable Paypal Payment.
- Enter the Merchant Account ID.
- On the top right corner, click Save Config.

In Other Payment Methods > Paypal Subscription

Set Enabled to Yes.

Login Status will be OK if credentials are valid. The status will be updated only when the credentials are entered and saved.

Click on the Save Config button to save the data entered.

Paypal Subscription

Ok

+ IPN (Instant Payment Notification) config

1. Log in to your PayPal business account at www.paypal.com.
2. Click on the settings icon at the top of your PayPal account page, choose **Profile > Settings**.
3. Choose My selling tools.

★ **Note:** If you do not see the profile icon on the top right, navigate to **My Account > Profile > My Selling Tools**.

4. Click on the Update link in the **Instant payment notifications** row, in the Getting paid and managing my risk section.
5. Choose IPN Settings to specify your listener's URL and activate the listener. The following page opens

6. Specify the URL for your listener in the Notification URL field. The URL to be called follows the format: {your magento url}/subscription/webhooks/ Paypal
7. Click Receive IPN messages (Enabled) to enable your listener.

You can modify your notification URL or disable your listener by clicking on **Edit settings**.

You can reset your IPN preferences by clicking on the **Turn Off IPN** button.

Stripe Configuration

Requirement Settings

- **Sandbox Mode Enabled:** Turn this on (**Yes**) for test mode, remember to use the test key and test cards for testing. Other please turn this off (**No**) when you go Live.
- **If you use the Test Key:**
 - You should fill in Stripe API Test Keys in Test Publishable Key, Test Secret Key to connect Magento, and Stripe Payment Gateway.
 - Turn on the Sandbox Mode Enabled by choosing Yes.
- **If you use the Live Key:**
 - Fill in your Stripe API Keys in Live Publishable Key, Live Secret Key to connect Magento with Stripe Payment Gateway.

Maximum Order Total
[store view]

- You can set the **Payment Action** to be Authorize and Capture or Authorize Only
 - Authorize Only (Authorization):** will check the card for validity but not charge the account yet until the order is approved and invoiced.
 - Authorize and Capture(Sale):** will charge the debit/credit card at the time of the order submission.
- Select Stripe API Integration:** There are 3 Stripe APIs to choose
 - Stripe.js v3 & Elements.** Pre-filled SAQ A
 - Stripe.js v2.** SAQ A-EP
 - Directly to the API.** SAQ D

It is highly recommended to use **Stripe.js v3 & Elements** for advanced security features.

⚠ Note: In order to enable 3D secure, you must use **Stripe.js v3 & Elements** or **Stripe.js v2**.

- Display payment button:** Enable this option to display Apple Pay, Google Pay, and Microsoft Pay payment button in the Stripe payment method.
- 3D Secure:** Choose Yes to enable 3D secure for Stripe payments.
- Force 3D secure:** Choose Yes to force 3D secure application.
- The behavior and application of 3D secure vary across card types and networks. Some card issuers do not support this verification method, in order to deal with that, you can choose 1 of 2 options for 3D secure application:
 - 3D secure is recommended:** The process is not required, but you can be covered by liability shift.
 - 3D secure is optional:** The process isn't required but can be performed to help reduce the likelihood of fraud.
- Enable card saving:** Allow logged-in customers to save credit card information.
- Enable MOTO:** Allow admin to make the payment from the backend.
- You can set the **New Order Status:** Processing, Suspected Fraud
 - Processing:** The payment is made successfully and an order invoice is issued.
 - Suspected Fraud:** No invoice is issued.
- Allowed Credit Card Types:** You can choose which credit card types are accepted on your site by choosing one or more items.
- Payment from Applicable Countries:**
 - All allowed countries:** Enable all allowed countries to make payments.
 - Specific Countries:** Restrict some countries by unselecting them from the **Payment from Specific Countries**.
- In addition, you can add/edit the **Instructions** to instruct customers on how to make payments.
- Sort Order:** The order of the payment method that will be displayed on the checkout page.

Stripe IFrame Checkout Form

- Enabled:** Choose Yes to enable the IFrame checkout form method
- Title:** Edit the title for the payment method. Here we recommend you to set it as "Stripe Checkout IFrame"

Purchase the subscription product in an easy way

On the storefront, the subscription product will be shown with subscription options

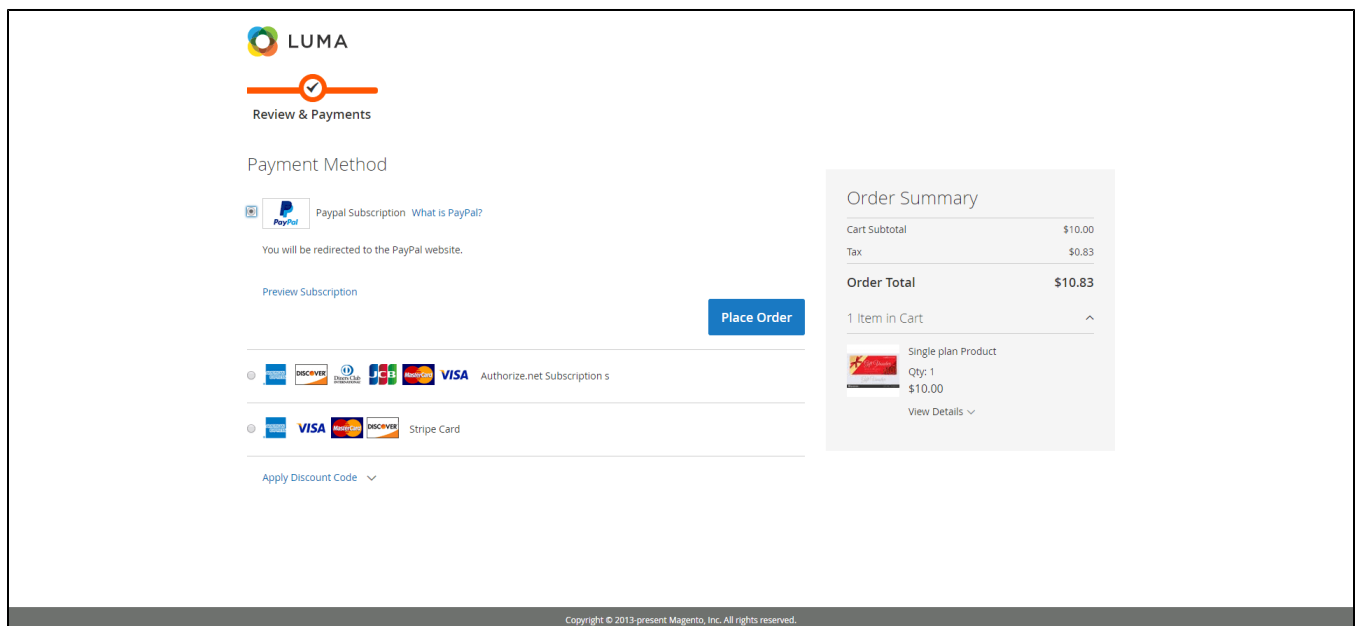

NOTE: For the cart that contains the subscription product, we currently support this cart with only one subscription product, not with a one-time purchase product.

Recurring payments

Payment through PayPal

Customers fill in their PayPal account to pay for their order.

Customers can preview subscription information before placing an order.

Payment through Stripe Payment

Customers enter information about Credit card numbers, expiration dates, and card verification numbers. After that, click on the **"Place Order"** button to order.

Customers can preview subscription information before placing an order.

The screenshot shows the 'Review & Payments' section of a checkout process. A modal window is open for selecting a payment method. The modal displays the following details:

- Payment Method: Stripe
- Plan Name: monthly
- Amount: 10.00 USD
- Billing Frequency: Every 1 month(s)
- Trial: Don't have a trial

An 'OK' button is at the bottom of the modal. In the background, the 'Order Summary' shows a Cart Subtotal of \$10.00, Tax of \$0.83, and an Order Total of \$10.83. The customer's name is Veronica Costello, and the address is 6146 Honey Bluff Parkway, Calder, Michigan 49628-7978, United States. A 'Place Order' button is visible at the bottom right.

Manage recurring profiles

Manage recurring profiles at the front end

Customers can view and manage all of their orders regarding subscription products by clicking on **My account > Recurring Subscriptions**.

The screenshot shows the 'Recurring Subscriptions' page within a user's account. The left sidebar contains a navigation menu with options like 'My Account', 'My Orders', 'My Downloadable Products', 'My Wish List', 'Address Book', 'Account Information', 'Stored Payment Methods', 'Billing Agreements', 'My Product Reviews', 'Newsletter Subscriptions', 'Stripe Card Management', and 'Recurring Subscriptions' (which is currently selected). The main content area displays a table of recurring subscriptions.

Update

- When a new update is available, we will provide you with a new package containing our updated extension.
- You will have to delete the module directory and repeat the installation steps above.
- Flush the config cache. Your store and newly installed module should be working as expected.

Support

- We will reply to support requests within **2 business days**.
- We will offer a **lifetime free update and 6 months of free support for all of our paid products**. Support includes answering questions related to our products, bug/error fixing to make sure our products fit well in your site exactly like our demo.
- Support **DOES NOT** include other services such as customizing our products, installation, and uninstallation service.

Once again, thank you for purchasing our extension. If you have any questions relating to this extension, please do not hesitate to contact us for support.
