

Disable Compare Products for Magento®

Thank you for using our extension! If you have any questions - feel free to email us magery.themes@gmail.com

Installation

Unpack the archive to the root directory of your Magento installation.

Then **clear the cache**.

Go to admin page under *System* → *Cache Management* and press **Flush Magento Cache** button.

Now the module is enabled in the system and it is ready to be used.

No configuration is needed.
