

Disable Reviews for Magento®2

Thank you for purchasing our extension! If you have any questions - feel free to email us magery.themes@gmail.com

Overview

This extension allows disabling of reviews and ratings in Magento 2 store. Supports both Magento Community (Magento Open Source) and Enterprise Edition (Magento Commerce) versions.

Main features:

- Removes reviews and ratings on Product page (including reviews tab), Product listing (category page) and in product list widget
- Removes “My Product Reviews” link in customer account
- Removes “My Recent Reviews” block on customer account dashboard (since Magento 2.2)
- Disables all reviews-related URLs (when user tries to access reviews functionality by direct link, he will be redirected to 404 page)

Installation

Create new directory **app/code/Magery/DisableReviews** in a root folder of your Magento installation. Unpack the archive, copy extracted content to this newly created directory.

Connect via SSH and run the following commands in the root folder:

1. `php bin/magento module:enable Magery_DisableReviews`
2. `php bin/magento setup:upgrade`

Then **clear the cache**.

Go to admin page under *System* → *Cache Management* and press **Flush Magento Cache** button. Now the module is enabled in the system and it is ready to be configured and used.

Configuration

In Magento admin navigate to *Stores* → *Configuration* → *Catalog* → *Catalog* → *Product Reviews* → *Disable Reviews*.

By default, this setting is turned off. In order to remove reviews and ratings switch this setting to **Yes** and clear the cache.

It is possible to change settings on different levels (default/website/store).

The screenshot shows the Magento Admin configuration interface. On the left is a sidebar menu with categories: GENERAL (expanded), CATALOG, and sub-items: Catalog, Inventory, XML Sitemap, and RSS Feeds. The main content area is titled 'Product Reviews' and contains two settings:

- Disable Reviews** (store view): A dropdown menu set to 'Yes'.
- Allow Guests to Write Reviews** (website): A dropdown menu set to 'Yes' with a checked checkbox for 'Use system value'.
