

File Downloads and Product Attachments Extension Installation

To install the extension, please follow the steps below:

1. Disable the *Compilation Mode* (if enabled)
2. Log out from *Magento Admin Panel* (if logged in)
3. Unpack the contents of the *Extension folder* (depending on your current Magento version) from the package file purchased from Mageworx to your *Magento root folder*
4. Log into *Magento Admin Panel*
5. Go to System – Cache Management section, choose *Refresh* under the *All Cache* drop-down menu and press the *Save Cache Settings* (if Cache Control is enabled in Magento)
6. Enable the *Compilation Mode* back (if necessary)
7. Go to System – Configuration – MageWorx tab – Extensions & Support section. If you see File Downloads & Product Attachments in the list of installed MageWorx extensions, the installation is done.

Installation to a custom template/theme

If you use a custom template/theme you need to copy the extension's layouts, templates and skin files to the folder with your custom template/theme.

Copy the following folders:

[app/design/frontend/default/default/layout/](#)
[app/design/frontend/default/default/template/](#)
[skin/frontend/default/default/css/](#)
[skin/frontend/default/default/images](#)

Copy them to:

[app/design/frontend/<your-template>/<your-theme>/layout/](#)
[app/design/frontend/<your-template>/<your-theme>/template/](#)
[skin/frontend/<your-template>/<your-theme>/css/](#)
[skin/frontend/<your-template>/<your-theme>/images/](#)

Note! All these folders already exist in your store and you have to merge them with the folders on your server. Do not overwrite them.

Now you can start using the extension!
