

# Reward Points Extension for Magento 2

USER GUIDE

**mageworx**

---

## About the Extension

Reward Points extension allows the store owner to manage customers credit funds so that they can make purchases using the reward points.

These reward points can get added to the customer account balance for completing such actions as placing an order, leaving a review or subscribing for newsletters, as well as assigned on special occasions.

Additional conditions can be applied so that the customer gains points only if they are met.
