

Cross Links Extension for *Magento 2*

USER GUIDE

mageworx

About the Extension

With the extension, it is possible to automatically create internal or external cross links between different products, categories and CMS pages, as well as any relevant external sources.

Create a well-organized store structure that will help you in improving search engine rankings for your Magento 2 store.

The extension is a part of [SEO Suite Ultimate for Magento 2](#). Get a complete toolkit to make your store pages search engines' favorites. Optimize page content, URLs, meta data; generate advanced XML/HTML sitemaps, weed out duplicate content issues and a lot more.
