

Magento 2® Guide

Google Shopping

Google Shopping

Thank you for choosing a Magmodules extension for your Magento® store. This Google Shopping extension is developed for Magento 2 and is made to easily connect your Magento store with Google Merchant account. With the Google Merchant service from Google you can submit all your products to Google Shopping and create new visitors and sales from the Google network. The Google Merchant Center interface is especially designed to help merchants in submitting their products to Google Shopping.

The Google Shopping extension creates a new XML feed everyday so your products are always up to date in your Google Merchant account. To avoid errors, the extension is designed to gain all the necessary data for your Google merchant account. The Google Shopping extension supports all Magento products types like Simple, configurable and bundled or grouped products.

To upload your Magento Products with the Google Shopping extension you need to have an account to use the Merchant Tools from Google Merchant Center.

Installation

There are 2 different ways to install the extension:

1. [Installation through the Magento Marketplace](#)
2. [Installation through FTP](#)

Knowledge Base

In our knowledge Base we add the most frequently asked questions from this Magento® extension and we setup a clear guide to help you with the installation and configuration. Please feel free to ask any further questions so we can complete this knowledge base for the benefits of all as this knowledge base is designed to offer a complete support option in self-service.

It allows you to search for the frequently requested actions or have a peek in the configuration settings to get the most out of the extensions

You can find the Knowledge Base for this extension here;
