

E-boekhouden

for Magento 2®

E-boekhouden

All your orders, invoices, and customer data are sent directly to E-boekhouden. This way your administration is automatically in order without you having to worry about it yourself. You always know exactly how you are doing thanks to a direct and complete insight into all your orders. Unlike many other accounting links, this extension creates a direct link, without using an external API or platform. This means fast and secure data transfer without the risk of malfunctions.

Installation

There are 3 different ways to install the extension:

1. [Installation through the Magento Marketplace](#)
2. [Installation through FTP](#)
3. [Installation through Composer](#)

Knowledge Base

In our knowledge Base we add the most frequently asked questions from this Magento® extension and we setup a clear guide to help you with the installation and configuration. Please feel free to ask any further questions so we can complete this knowledge base for the benefits of all as this knowledge base is designed to offer a complete support option in self-service.

It allows you to search for the frequently requested actions or have a peek in the configuration settings to get the most out of the extensions

You can find the Knowledge Base for this extension here;
