

Grouped Product

Custom Options

Installation Guide

Magoon GroupedOptions Extension for Magento 2 CE

- Download the .zip archive for the Grouped Product Custom Options extension.
- Extract the contents of the archive.
- Copy the extracted contents into the Magento root directory so that it follows the path
 - /app/code/Magoon/GroupedOptions/
- Once copied into the proper directory, run the following upgrade command:
 - php bin/magento setup:upgrade
- Flush all caches from the Magento Admin panel:
 - System > Cache Management > Flush Magento Cache
