

Configuring your extension:

Please make sure the indexes are up to date.

Go to Stores > Configuration > Catalog > Ajax Layered Navigation

Options are explained in the extensions configuration screen. We tried to make the options as self explanatory as possible, let us now if you find some of them unclear.

Also, you can change the settings and see the output, the settings changes can be undone without affecting your site.

If any doubt or comment, please do not hesitate to contact us at office@mangoextensions.com
