

Thanks for buying the Low Order Fee Extension for Magento2.

#### Installation Steps:

1. Download the extension

2. Create the subdirectory: `app/code/Mango/` and upload the extension to this folder. The extension files will be under `app/code/Mango/Loworderfee`, the following paths should be present:

```
app/code/Mango/Loworderfee/Block  
app/code/Mango/Loworderfee/etc  
app/code/Mango/Loworderfee/Helper  
app/code/Mango/Loworderfee/Model  
app/code/Mango/Loworderfee/Observer  
app/code/Mango/Loworderfee/view  
app/code/Mango/Loworderfee/composer.json  
app/code/Mango/Loworderfee/registration.php
```

3. SSH to your server and run the following command in your Magento directory:

```
php bin/magento setup:upgrade
```

4. If the system is in default or production mode:

```
php bin/magento setup:static-content:deploy
```

5. After that, go to the admin section, and you will find the extension options under `Stores > Configuration > Sales > Sales > Minimum Order Amount and Low Order Fee`
