

Mailgo for Magento 2

Installation

Mailgo module for Magento 2 - <https://mailgo.dev>

Instructions

Copy the content of the archive in

```
/app/code/Manzinello/Mailgo
```

and then

```
php bin/magento module:enable Manzinello_Mailgo
```

and

```
php bin/magento setup:upgrade
```

maybe is also necessary:

```
php bin/magento setup:static-content:deploy [-f]
```

Now all your **mailto:** and **tel:** links have mailgo!

For every additional information (show subject, cc, bcc...) please refer to the official documentation <https://mailgo.dev/>
