

# Mailgo for Magento 2

## User guide

Mailgo module for Magento 2 - <https://mailgo.dev>

### Usage

Activating the extension, all the **mailto** and **tel** links used in the Magento website will be transformed into **mailgo** modals, no action needed.

For the details (exception, customization...) refer to the official documentation, in the **Usage** section: <https://mailgo.dev/docs/usage>
