

Step by Step Guide towards placing your first Order on Magneto II/ How to Place Your First Order on Magento II/ Getting Started on Magento II/ Translating Your Magento Store/ how to get your Online Store Translated through Magento

We hope you are as excited as we are for our Magento II extension. This extension enables you to get your online store translated within a few clicks.

Magento II extension has now made the translation of your online product catalogue easier, more accurate and time saving.

Just in case you are not sure as to how to proceed here is a step by step guide which will help you place your very first order.

Our extension provides translations in over 200 languages by a pool of certified native translating professionals. You don't need to upload files or update website manually.

Step 1

Start your simplified journey towards a multilingual online store by entering your client ID and client secret, you get from [MarsTranslation](#). In case you are wondering, you can get these credentials as mentioned here [How to get your client id and client secret from MarsTranslation](#).

The screenshot shows the Magento II Configuration page for the MarsTranslation extension. The page is titled "Configuration" and has a "Store View" dropdown set to "Default Config". A "Save Config" button is visible in the top right corner. The left sidebar contains a navigation menu with categories: DASHBOARD, SALES, PRODUCTS, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, and FIND PARTNERS & EXTENSIONS. The main content area is titled "MarsTranslation Login" and contains two input fields: "Client Id [global]" and "Client Secret [global]". A "Login" button is positioned below the input fields. The footer of the page displays "Copyright © 2017 Magento, Inc. All rights reserved." and "Magento ver. 2.1.8".

Step 2

Select the products you wish to translate. You should also be able to see the source and target languages in the adjacent columns.

The screenshot shows the Magento 2 Catalog page. At the top right, there is a yellow banner with "System Messages: 1". Below it, the "Catalog" header includes a search icon, a notification bell, and a user profile for "admin". An "Add Product" button is visible on the right. Below the header, there are filters and a "Default View" dropdown. The main content area shows "2 records found" and a table with the following data:

Actions	ID	Thumbnail	Name	Source	Translations	Type	Attribute Set	SKU	Price	Quantity	Visibility	Status	Websites	Action
<input type="checkbox"/>	9		Remote 1	en-US	zh-CN es-ES	Simple Product	Default	Remote-1	\$500.00	2,0000	Catalog, Search	Enabled	Main Website	Edit
<input type="checkbox"/>	10		Remote 2	en-US	zh-CN es-ES	Virtual Product	Default	Remote-2	\$100.00		Catalog, Search	Enabled	Main Website	Edit

At the bottom of the page, there is a copyright notice: "Copyright © 2017 Magento, Inc. All rights reserved." and the version information: "Magento ver. 2.1.8" with a link to "Report Bugs".

Step 3

Go to the drop down menu labelled as 'action' and select 'upload to MarsTranslation'. Once this option is chosen, all your selected products will be sent to us for translation.

Once the files have been successfully uploaded the tab under 'source' should turn orange.

The screenshot shows the same Magento 2 Catalog page as in Step 2. The "Actions" dropdown menu is open, and the "Upload to MarsTranslation" option is highlighted with a red box. The table below shows the same two records, but the "Source" column for both records is now highlighted in orange, indicating they have been successfully uploaded for translation.

Actions	ID	Thumbnail	Name	Source	Translations	Type	Attribute Set	SKU	Price	Quantity	Visibility	Status	Websites	Action
<input type="checkbox"/>	9		Remote 1	en-US	zh-CN es-ES	Simple Product	Default	Remote-1	\$500.00	2,0000	Catalog, Search	Enabled	Main Website	Edit
<input type="checkbox"/>	10		Remote 2	en-US	zh-CN es-ES	Virtual Product	Default	Remote-2	\$100.00		Catalog, Search	Enabled	Main Website	Edit

The "Upload to MarsTranslation" option in the dropdown menu is highlighted with a red box. The "Source" column for both records in the table is highlighted in orange.

You can hover the mouse over the **'translations'** section to see the status in writing, however, once the translations have been assigned the language will turn orange, once the translation is complete the respective tab on the column will turn blue.

Step 5

After your translations are complete you can go to the same drop down menu to import your translations.

The screenshot shows the Magento 2 Admin Catalog page. A sidebar on the left contains navigation options like Dashboard, Sales, Products, Customers, Marketing, Content, Reports, Stores, System, and Find Partners & Extensions. The main content area displays a table with 2 records found. The 'Actions' dropdown menu is open, and the 'Import Translations' option is highlighted with a red box. The table columns include Name, Source, Translations, Type, Attribute Set, SKU, Price, Quantity, Visibility, Status, Websites, and Action.

Name	Source	Translations	Type	Attribute Set	SKU	Price	Quantity	Visibility	Status	Websites	Action
Remote 1	es-ES	zh-CN en-US	Simple Product	Default	Remote-1	\$500.00	2.0000	Catalog Search	Enabled	Main Website	Edit
Remote 2	es-ES	zh-CN en-US	Virtual Product	Default	Remote-2	\$100.00		Catalog Search	Enabled	Main Website	Edit

Here you can see a demonstration of product translation of the same store in Chinese as well as Spanish.

The screenshot shows the LUMA storefront. The top navigation bar includes 'Default welcome msg!', 'Sign In', 'or', 'Create an Account', and 'Chinese Store'. The product page features the LUMA logo, a search bar, and the product name '远程2'. The price is 'US\$ 100.00' and the status is 'OUT OF STOCK'. The product description is in Chinese: '这个简短的描述是英文的'. The page also includes options for 'ADD TO WISH LIST', 'ADD TO COMPARE', and 'EMAIL'.
