4. [Delivery Date Details in the Backend](#)

## 1. Extension Installation

- Create a folder structure in Magento root as app/code/Meetanshi/DeliveryDate
- Download and extract the zip folder and upload our extension files to the app/code/Meetanshi/DeliveryDate via FTP.
- Login to your SSH and run below commands step by step:
  - php bin/magento setup:upgrade
  - For Magento version 2.0.x to 2.1.x - php bin/magento setup:static-content:deploy
  - For Magento version 2.2.x & above - php bin/magento setup:static-content:deploy -f
  - php bin/magento cache:flush

## 2. Configuration

To configure the extension, login to Magento 2 backend, move to **Stores → Configuration → Meetanshi → Delivery Date** where you can find various settings to configure the extension.

- **Delivery Date:** Enable or disable Delivery Date extension from here.
- **Order Processing Time:** Enter the order processing time in days after which customer can select the delivery date.
- **Delivery Unavailability Days (Holidays/Blackout Days):** Add holidays or special days when order delivery is unavailable.
- **Delivery Time Slots:** Add allowed time slots for the customers to select the time of the day for the order arrival.
- **Enable Order Arrival Comment:** Set YES to enable order arrival comment box in the frontend that allow customers to enter additional comment for the delivery boy.
- **Delivery Exception Week Days:** Select the days of the week when delivery is unavailable.
- **Date Format:** Select the date format to show customers while selection of the delivery date from the frontend.
- **Upload Calendar Icon:** Upload the calendar icon on click of which the delivery date selector opens up in the frontend.
- **Delivery Date Required?:** Set YES to make it mandatory for the customers to select the delivery date.
- **Delivery Time Slots Required?:** Set YES to make it mandatory for the customers to select the time slot for the order arrival.
- **Required Order Arrival Comment?:** Set YES to make it mandatory for the customers to add order arrival comment while placing the orders from the frontend.

### 3. Delivery Date Selector in Frontend

After configuring the extension, whenever customers add products to cart and move to the checkout page, they are allowed to select the delivery date using the delivery date selector, select the convenient delivery time slot and add order comment.

The screenshot displays the checkout page with the following sections and annotations:

- Shipping Address:** A form containing the address "Meetanshi Tester, 3121 Doctors Drive, Los Angeles, California 90001, United States, 310-341-3149". A red box highlights this section with the text "Delivery Date selection on the checkout page".
- Order Summary:** A grey box on the right showing "2 Items in Cart".
- Shipping Methods:** A section with radio buttons for "\$5.00 Fixed" and "Flat Rate".
- Preferred Delivery Date:** A text input field containing "04/02/2021" with a calendar icon. A red box with an arrow pointing to the icon contains the text "Click to open the delivery selector and select the delivery date".
- Calendar:** A calendar for February 2021 is open, showing the date "4" selected. A red box with an arrow pointing to the date contains the text "Pick the convenient delivery date, time slot and add order comment if required".
- Convenient Delivery Time:** A dropdown menu showing "11:00 AM - 1:00 PM".
- Additional Order Comment:** A text area containing "Please ring the bell and leave the order at door."
- Next Button:** A blue button labeled "Next" at the bottom right.

## 4. Delivery Date Details in Backend

- **Delivery Date Selection Details in Sales Order Grid**

After customers have placed the order successfully, the admin can see delivery date information selected by customers from the **Sales > Orders** grid in the backend. The grid includes customer selected delivery date and time slot.

Orders 17 Delivery-Date ▾

The admin can view customer selected delivery date and time slot in sales orders grid in the backend
