

Limit Product Quantity Per Customer for Magento 2

User Guide

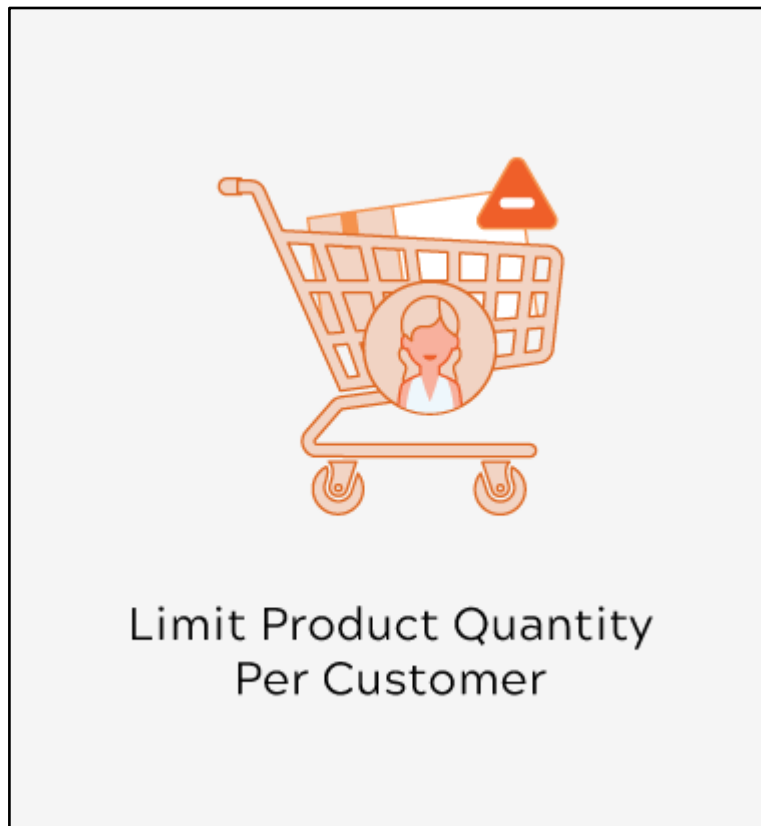

Table of Content

1. [Extension Installation Guide](#)
2. [Configuration](#)
3. [Setting Product Quantity Limit Per Customer](#)
4. [Limit Product Quantity Per Customer in Frontend](#)

1. Extension Installation

- Find the Composer name and version of the extension in the extension's composer.json file.
- Login to your SSH and run:
 - `composer require meetanshi/magento-2-limit-product-quantity-per-customer --ignore-platform-reqs`
- Enter your [authentication keys](#). Your public key is your username; your private key is your password.
- Wait for Composer to finish updating your project dependencies and make sure there aren't any errors.
- To verify that the extension installed properly, run the command:
 - `php bin/magento module:status Meetanshi_RestrictProductQuantity --ignore-platform-reqs`
- By default, the extension is probably disabled.
- Enable the extension and clear static view files:
 - `php bin/magento module:enable Meetanshi_RestrictProductQuantity --clear-static-content`
 - `php bin/magento setup:upgrade`
 - For Magento version 2.0.x to 2.1.x - `php bin/magento setup:static-content:deploy`
 - For Magento version 2.2.x & above - `php bin/magento setup:static-content:deploy -f`
 - `php bin/magento cache:flush`

2. Configuration

For configuring the extension, log in to Magento 2, move to **Stores → Configuration → Limit Product Quantity Per Customer** where you can find various settings to enable the extension.

- **Limit Product Quantity Per Customer:** Enable or disable Limit Product Quantity Per Customer extension from here.
- **Error Message:** Enter error message to show when someone tries to buy the product exceeding the purchase limit set from the backend.
- **Customer Login Required:** Set YES to mandate login prior to purchasing the products.

The screenshot shows the 'Configuration' page for the 'Limit Product Quantity Per Customer' extension. The 'Store View' is set to 'Default Config'. The 'Limit Product Quantity Per Customer' setting is set to 'Enable'. The 'Error Message' is 'You can buy only 1 quantity of the trial product(s)'. The 'Customer Login Required' setting is set to 'Yes'. Red boxes and arrows highlight these settings with explanatory text: 'Enable Limit Product Quantity Per Customer extension from here', 'Enter error message to show when someone exceeds purchase limit', and 'Select YES to mandate login for product purchase'.

3. Setting Product Quantity Limit Per Customer

To set quantity limit per customer for each product, go to **Catalog → Manage Products → Edit a Product** and you can find the option “**Quantity Limit Per Customer**”. Set the desired quantity to restrict customer.

The screenshot shows the 'Edit Product' page for 'Dove Shampoo Sachet'. The 'Quantity Limit Per Customer' field is highlighted with a red box and labeled 'Set quantity limit per customer from product edit'. The field contains the value '1'. Other fields include 'Enable Product' (Yes), 'Attribute Set' (Default), 'Product Name' (Dove Shampoo Sachet), 'SKU' (Dove Shampoo Sachet), 'Price' (\$ 2.00), and 'Tax Class' (None).

4. Limit Product Quantity Per Customer in Frontend

If you have set to mandate the login for the purchase, guest users will be restricted with the message to register or log in prior to place the order.

- **Quantity Restriction Error Message**

After seeing the mandatory login restriction, if the users register and log in to place the order by exceeding the quantity limit set for the product, they will be shown an error message for the quantity restriction. They will only be able to check out the products when they add the quantity under or equal to set limit.
