1. Extension Installation

- Create a folder structure in Magento root as app/code/Meetanshi/QuickView
- Download and extract the zip folder and upload our extension files to the app/code/Meetanshi/QuickView via FTP.
- Login to your SSH and run below commands step by step:
 - php bin/magento setup:upgrade
 - For Magento version 2.0.x to 2.1.x - php bin/magento setup:static-content:deploy
 - For Magento version 2.2.x & above - php bin/magento setup:static-content:deploy -f
 - php bin/magento cache:flush

2. Configuration

To configure the extension, login to Magento 2 backend, move to **Stores → Configuration → Quick View** where you can find various settings to configure the extension.

- **Quick View:** Enable the extension from here.
- **Hide Blocks in Quick View:** Select the blocks you want to hide in the quick view popup.
- **Product Image Full Screen:** Set YES to allow full screen of product images from the quick view popup.
- **Close Popup After Add to Cart:** Select YES to auto close popup after product add to cart.
- **Close on Background Click:** Select YES to allow close popup on background click.
- **Enable Go to Product Button:** Select YES to enable “Go to Product” button in quick view popup.

The screenshot shows the 'Configuration' page for the Meetanshi extension. The 'Quick View' section is expanded, showing the following settings:

- Quick View:** Set to 'Enable'. A red box highlights this dropdown, with an arrow pointing to a text box: "Enable Quick View extension from here".
- Hide Blocks in Quick View:** A list of blocks is shown, with 'Up-sell Product Block' selected. A red box highlights this list, with an arrow pointing to a text box: "Select blocks to hide in the quick view".
- Product Image Full Screen:** Set to 'Yes'. A red box highlights this dropdown, with an arrow pointing to a text box: "Select YES to allow showing product images in full screen".
- Close Popup After Add to Cart:** Set to 'Yes'. A red box highlights this dropdown, with an arrow pointing to a text box: "Select YES to close popup after product add to cart".
- Close Popup After Seconds:** Set to '3'. A red box highlights this input field, with an arrow pointing to a text box: "Enter seconds after which to close popup".
- Close on Background Click:** Set to 'Yes'. A red box highlights this dropdown, with an arrow pointing to a text box: "Select YES to close popup on background click".
- Enable Go to Product Button:** Set to 'Yes'. A red box highlights this dropdown, with an arrow pointing to a text box: "Select YES to enable 'Go to Product' button in the popup".

3. Popup Design Settings

Configure various settings to design the quick view popup in an attractive manner to match your theme.

- **Popup Position:** Set popup position to show in the category page.
- **Show Button on Hover:** Select YES to show Quick View button on category page only on hover of the product.
- **Button Text:** Enter custom text for the Quick View popup.
- **Button Icon:** Enter icon to show along with the quick view text.
- **Button Text Color:** Select quick view button text color.
- **Button Color:** Select quick view button color.

Popup Design Settings
