1. Extension Installation

- Create a folder structure in Magento root as app/code/Meetanshi/RecentSales
- Download and extract the zip folder and upload our extension files to the app/code/Meetanshi/RecentSales via FTP.
- Login to your SSH and run below commands step by step:
 - php bin/magento setup:upgrade
 - For Magento version 2.0.x to 2.1.x - php bin/magento setup:static-content:deploy
 - For Magento version 2.2.x & above - php bin/magento setup:static-content:deploy -f
 - php bin/magento cache:flush

2. Configuration

For configuring the extension, login to Magento 2, move to **Stores → Configuration → Recent Sales Notification** where you can find various settings to enable the extension.

- **Recent Sales Notification:** Enable or disable the extension from here.
- **Show Notification Popup In:** Select the option to show notification popup either in desktop, mobile or both.
- **Popup Position:** Select the popup position in the frontend.
- **Show Orders in Notification with Order Status:** Select order status of which you want to show recent orders in the notification popup.
- **Number of Recent Orders to Show:** Set the number of recent orders to show in the notification popup.

The screenshot shows the 'Configuration' page for the 'Recent Sales Notification' extension. The 'Recent Sales Notification' option is selected in the left sidebar. The main configuration area includes the following settings:

- Recent Sales Notification:** Set to 'Enable'. A red box highlights this dropdown, with an arrow pointing to a callout: 'Enable recent sales notification extension from here'.
- Show Notification Popup in:** Set to 'Both'. A red box highlights this dropdown, with an arrow pointing to a callout: 'Select option to show notification popup ether in desktop, mobile or both'.
- Popup Position:** Set to 'Bottom Left'. A red box highlights this dropdown, with an arrow pointing to a callout: 'Set popup display position in the frontend'.
- Show Orders in Notification with Order Status:** Set to 'Complete'. A red box highlights this dropdown, with an arrow pointing to a callout: 'Select order status to show recent orders in the popup'.
- Number of Recent Orders to Show:** Set to '5'. A red box highlights this text input, with an arrow pointing to a callout: 'Set number of recent orders to show in the notification popup'.

Additional callouts include: 'Select order status to show order details in recent sales notification.' for the 'Show Orders in Notification with Order Status' setting, and 'Enter number of recent orders to show in notification. Select 0 to show all one by one.' for the 'Number of Recent Orders to Show' setting.

3. Popup Settings

The extension allows to customize the display of popup in the frontend. The backend configurations for are the same as shown below:

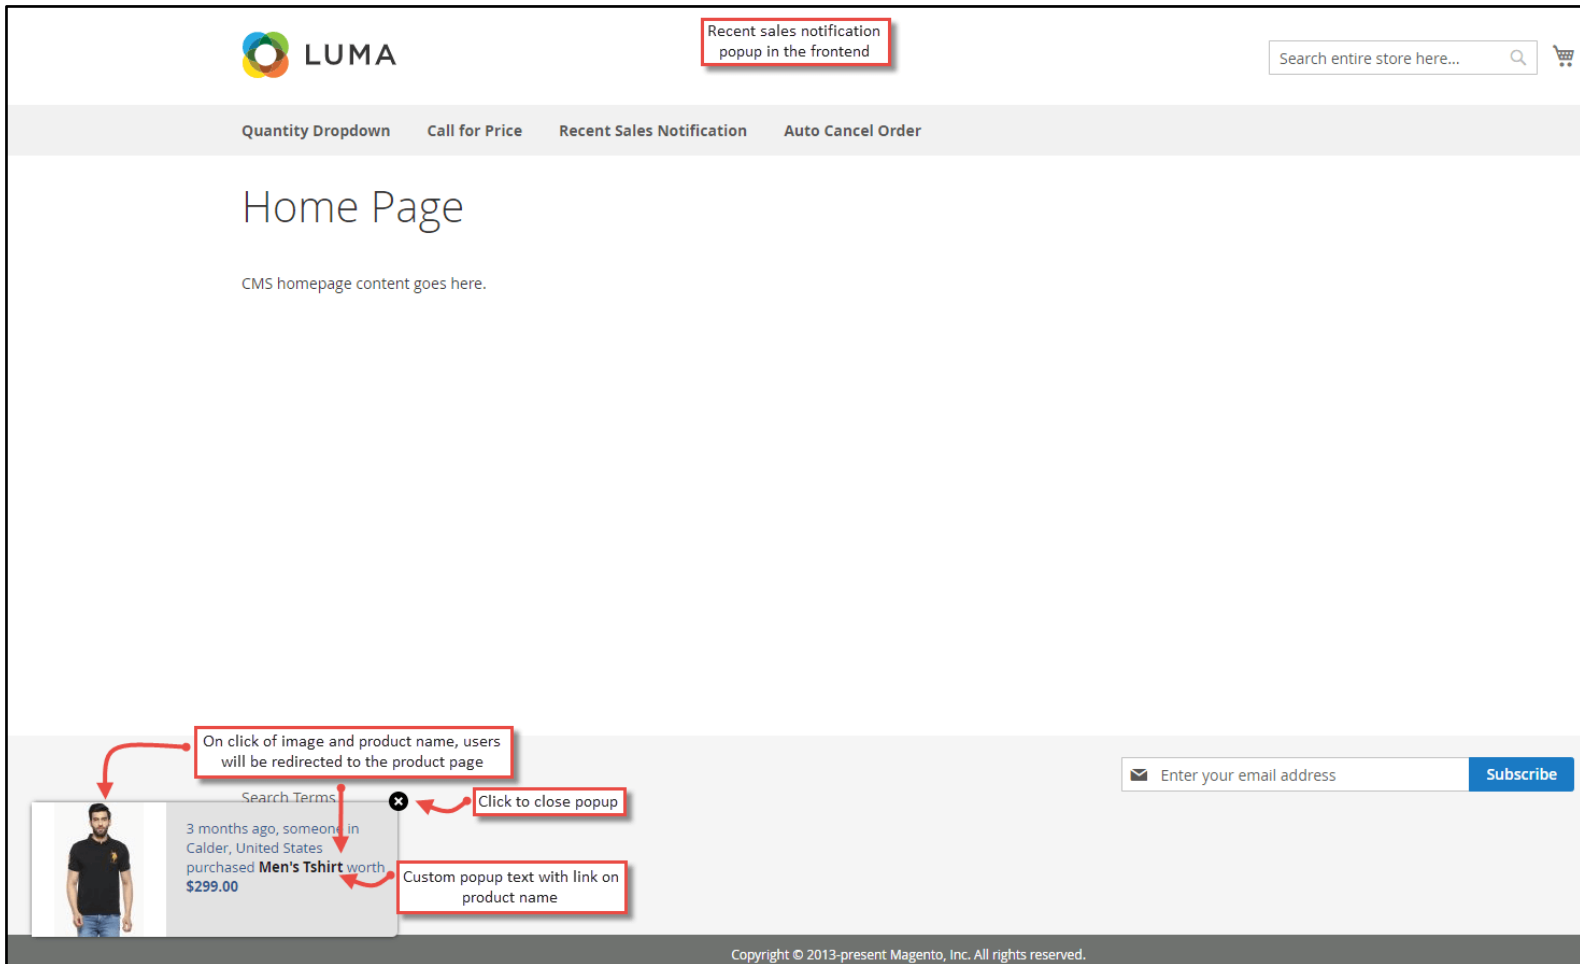

- **Popup Notification Text:** Enter custom notification text to show in the popup. You can make use of the system variable while creating notification text.
- **Enable Close Button on Popup:** Set YES to allow users close popup from the frontend.
- **Popup Display Time:** Set the popup display time. This is the time until which the popup keeps showing.
- **Popup Display Delay Time:** Set the popup display delay time. This is the interval between the display of two popups.
- **Background Color:** Set the background color of the notification popup.
- **Text Color:** Set the text color of the popup.
- **Link and Link Hover Color:** Set the link and link hover color for product name link in the notification popup.

4. Recent Sales Notification in Frontend

The extension, once configured, displays the recent sales notification popup to store visitors, having the details of recent orders. The popup view has the image and text side by side. A visitor can click the image and product name to land to the product page and can also close the popup if it annoys him! The information regarding the product and purchase is included in the notification popup.

The screenshot shows the LUMA storefront with a navigation menu including 'Quantity Dropdown', 'Call for Price', 'Recent Sales Notification', and 'Auto Cancel Order'. A search bar and shopping cart icon are in the top right. The main content area is titled 'Home Page' with the text 'CMS homepage content goes here.'.

A 'Recent sales notification popup in the frontend' is displayed. It features a product image of a man in a black t-shirt. A red box with an arrow points to the image with the text: 'On click of image and product name, users will be redirected to the product page'. The notification text reads: '3 months ago, someone in Calder, United States purchased **Men's Tshirt** worth \$299.00'. A red box with an arrow points to the product name 'Men's Tshirt' with the text: 'Custom popup text with link on product name'. A red box with an arrow points to a close button (an 'x' icon) with the text: 'Click to close popup'. A search bar with the text 'Search Terms' is also visible.

At the bottom right, there is an email subscription form with the text 'Enter your email address' and a 'Subscribe' button. The footer contains the text 'Copyright © 2013-present Magento, Inc. All rights reserved.'
