

## **Installation guide**

Before installation it is recommended take backup of your website.

Disable compilation and cache.

Extract zip file.

Create following directory structure

Magento root/app/code/MES/Discount

Upload content of display discount folder content at above path.

For enable module open command line in folder root of your magento

Run following command

**php bin/magento module:enable MES\_Discount**

OR

You can add '**MES\_Discount**' => **1**, at app/etc/config.php

## Mage Extensions Shop

```
1 <?php
2 return array (
3     'modules' =>
4     array (
5         'MES_Discount' => 1,
6         'Magento_Store' => 1,
7         'Magento_AdvancedPricingImportExport' => 1,
8         'Magento_Directory' => 1,
9         'Magento_Theme' => 1,
10        'Magento_Backend' => 1,
11        'Magento_Backup' => 1,
12        'Magento_Eav' => 1,
13        'Magento_Customer' => 1,
14        'Magento_BundleImportExport' => 1,
15        'Magento_CacheInvalidate' => 1,
16        'Magento_AdminNotification' => 1,
17        'Magento_Indexer' => 1,
18        'Magento_CatalogImportExport' => 1,
19        'Magento_Cms' => 1,
20        'Magento_Rule' => 1,
21        'Magento_Catalog' => 1,
22        'Magento_Search' => 1,
23        'Magento_CatalogUrlRewrite' => 1,
24        'Magento_Widget' => 1,
25        'Magento_Quote' => 1,
26        'Magento_CheckoutAgreements' => 1,
27        'Magento_SalesSequence' => 1,
28        'Magento_CmsUrlRewrite' => 1,
29        'Magento_Config' => 1,
30        'Magento_ConfigurableImportExport' => 1,
31        'Magento_Msrp' => 1,
32        'Magento_Contact' => 1.
```

Now run following command

**php bin/magento setup:upgrade**

Done.
