

## *MexBS Bogo v1.4.0 Installation Guide*

### *Installation*

Before we begin, please ensure that you have a backup of your data before proceeding with the installation of the extension. This is because although we will make our best to support you, we cannot take responsibility of any data loss that might occur during the installation/adjustments of this extension.

[ 1 ] Go to the Magento installation directory on your server, and make sure to create the following paths –

```
app/code/Mexbs/ApBase  
app/code/Mexbs/Bogo
```

[ 2 ] Unpack the mexbs\_bogo-1.4.0.zip file.

Copy all the extracted files from the mexbs\_bogo-1.4.0/ApBase directory to the app/code/Mexbs/ApBase path that you've just created, and copy all the extracted files from the mexbs\_bogo-1.4.0/Bogo directory to the app/code/Mexbs/Bogo path that you've just created

[ 3 ] Connect via SSH and go to your Magento root directory

[ 4 ] Determine the mode that your Magento is running on, by running the following command:

```
php bin/magento deploy:mode:show
```

[ 5 ] If you are in **developer** or **default** mode, run the following commands:

```
php bin/magento maintenance:enable
```

```
php bin/magento module:enable Mexbs_ApBase --clear-static-content
```

```
php bin/magento module:enable Mexbs_Bogo --clear-static-content
```

```
php bin/magento setup:upgrade
```

```
php bin/magento setup:static-content:deploy
```

If your Magento version is 2.1.x run:

```
php bin/magento setup:static-content:deploy
```

If your Magento version is 2.2.x or 2.3.x run:

```
php bin/magento setup:static-content:deploy -f
```

```
php bin/magento maintenance:disable
```

[ 6 ] If you are in **production** mode, run the following commands:

```
php bin/magento maintenance:enable
```

```
php bin/magento module:enable Mexbs_ApBase --clear-static-content
```

```
php bin/magento module:enable Mexbs_Bogo --clear-static-content
```

```
php bin/magento setup:upgrade
```

```
php bin/magento setup:di:compile
```

```
php bin/magento setup:static-content:deploy
```

```
php bin/magento maintenance:disable
```

[ 7 ] Go to the admin panel – “System->Cache Management” and click “Flush Magento Cache”.

*You are all set! Enjoy your extension ♥*
