MexBS Bundled Discount v1.1.0 Installation Guide

Installation

Before we begin, please ensure that you have a backup of your data before proceeding with the installation of the extension. This is because although we will make our best to support you, we cannot take responsibility of any data loss that might occur during the installation/adjustments of this extension.

[1] Go to the Magento installation directory on your server, and make sure to create the following paths –
app/code/Mexbs/ApBase
app/code/Mexbs/BundledDiscount

[2] Unpack the mexbs_bundled-discount-1.1.0.zip file.
Copy all the extracted files from the mexbs_bundled-discount-1.1.0/ApBase directory to the app/code/Mexbs/ApBase path that you've just created,
and copy all the extracted files from the mexbs_bundled-discount-1.1.0/BundledDiscount directory to the app/code/Mexbs/BundledDiscount path that you've just created
[3] Connect via SSH and go to your Magento root directory
[4] Determine the mode that your Magento is running on, by running the following command:

```
php bin/magento deploy:mode:show
```

[5] If you are in **developer** or **default** mode, run the following commands:

```
php bin/magento module:enable Mexbs_ApBase --clear-static-content
php bin/magento module:enable Mexbs_BundledDiscount --clear-static-content
php bin/magento setup:upgrade
php bin/magento setup:static-content:deploy
```

[6] If you are in **production** mode, run the following commands:

```
php bin/magento module:enable Mexbs_ApBase --clear-static-content
php bin/magento module:enable Mexbs_BundledDiscount --clear-static-content
php bin/magento setup:upgrade
php bin/magento setup:di:compile
php bin/magento setup:static-content:deploy
```

[7] Go to the admin panel – "System->Cache Management" and click "Flush Magento Cache".

You are all set! Enjoy your extension♥
