

Discount Link Coupon

Requirements:

Magento 2.x

General Overview:

Discount Link Coupon module triggers automatic discount code for shoppers/customers.

By installing extension, your coupon code will be applied by the link -

<http://www.yourwebsite.com/couponcode>.

You can send this URL in your newsletter campaigns etc. After following the link, coupon will be added automatically to the cart. On the frontend side will be placed notification with time and expiration date of this coupon.

Support: sales@m-integration.com

Install with Magento 2 Component Manager

If you purchased our extension on Magento Marketplace, install the extension with the Component Manager. The installation process for this extension similar to any other extensions on the Magento Marketplace.

Once installed, navigate to Stores->Configuration->M-integration->Discount Coupon (It will be disabled by default). We need to enable it. Some configuration values will be prepopulated, so we can use them as well.

The screenshot shows the Magento 2 Configuration interface for the 'Discount Coupon' module. The left sidebar contains navigation options: DASHBOARD, SALES, PRODUCTS, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, and FIND PARTNERS & EXTENSIONS. The main content area is titled 'Parameters' and includes a 'Save Config' button in the top right corner. The configuration settings are as follows:

| Parameter | Value |
|------------------------------------|--|
| Enable Coupon Code | Yes |
| First Title | Coupon Applied - e.g. - Discount code was applied to your cart! |
| Second Title | EXPIRES IN e.g. - Expires in |
| Background Color for Message block | #feca5c e.g. - Need to paste HEX code (#feca5c) |
| Height for Message Block | 30px e.g. - Need to paste value with px/pt etc |
| Font size for your text | 15px e.g. - Need to paste value with px/pt% etc |

At the bottom of the page, the footer contains the text: 'Copyright © 2017 Magento Commerce Inc. All rights reserved.' and 'Magento ver. 2.1.2 Report Bugs'.

After changing configuration all data should be saved.

Next step is creating coupon by itself. It is a default action in Magento. We can do that by go

through the path — Marketing->Catalog Price Rules. More information here - http://docs.magento.com/m2/ce/user_guide/marketing/price-rules-cart-coupon.html

Cart Price Rules Search 11 admin

[Add New Rule](#)

✓ You deleted the rule.

Search [Reset Filter](#) 1 records found 20 per page < 1 of 1 >

| ID | Rule | Coupon Code | Start | End | Status | Web Site | Priority |
|----|-------------|-------------|--------------|--------------|--------|--------------|----------|
| 5 | test_coupon | test_coupon | Sep 12, 2017 | Sep 30, 2017 | Active | Main Website | 0 |

Copyright © 2017 Magento Commerce Inc. All rights reserved. Magento ver. 2.1.2 [Report Bugs](#)

Then, we can check our functionality by following the link - http://yoursite.com/test_coupon, where «test_coupon» is our coupon code. Once we did that we will see the following:

Coupon Applied - \$50 EXPIRES IN 9d 10h 53m 19s
