

Call for Price Extension for Magento2

User Guide

1.Introduction

The Magento2 Call for Price extension helps store admins to hide the product price on the frontend and display a phone number. This makes the customers to call for product price and other queries. The call for Price extension for Magento2 thus facilitates businesses to gather customer information in order to engage with the customers in future.

1.1 Regular Product Page

1.2 Product page after applying “Call for Price”

Jogger Headphone

Call Us On 9898-XX-XX-XX

2.General Configuration
