

Alerts

USER GUIDE

v1.0.0

1. Get extension key from magento connect & install into the your admin via **System -> Web Setup Wizard -> SYSTEM CONFIG or System Configuration**.
2. After installation get Merchant account by registering on [SMS Alerts](#).
3. Add the required details on the site with respect to your site then get the plan or trial.
4. Add the **Merchant Id** and **SMS Gateway API Key** obtained from [SMS Alerts](#) into the **SMS ALERT -> Setting -> SMS ALERT** or **Store -> Configuration -> SMS ALERT**.
5. Now just select the events or order states on which you wish to send sms to the customer depending upon your plan and setting in [SMS Alerts](#).
