# NEKLO Extension Installation Guide for Magento 1

To install NEKLO extension for Magento 1, you need to have FTP/SSH access details. Attention! It is vital to disable code compilation before installing the extension. If this setting is left enabled, the extension installation can make your site inaccessible.

To disable code compilation, go to your **admin panel > System > Tools > Compilation** and click "Disable"

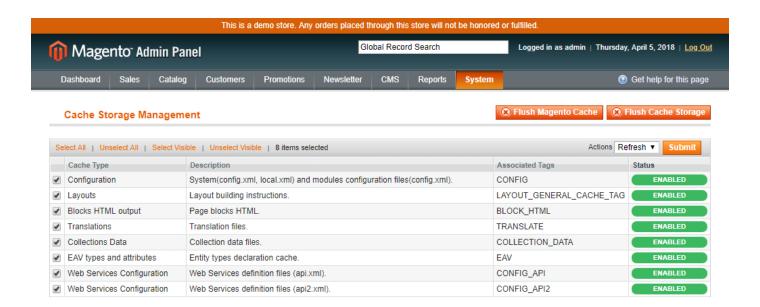

To Install the Extension:

1. Unpack a zip file you have downloaded.
2. Upload all files from the the zip file to the root folder of your Magento 1 installation.

3. In your admin panel, go to **System > Cache Management** and flush Magento cache.

This is a demo store. Any orders placed through this store will not be honored or fulfilled.
