

Instagram Feed for Magento 2 User Guide

Welcome to the User Guide for Instagram Feed. Thank you for choosing our product. This quick User Guide describes the functionality of the Instagram Feed extension by NEKLO and explains how to use it.

Introduction

Instagram Feed is an advanced and extremely popular extension for Magento that enables a valuable base integration with Instagram. The extension provides the ability to display Instagram posts in your Magento store and is the easiest way to integrate Instagram posts on your site.

The widget works in two modes: a grid or a slider. Both will look perfect in your Magento store. Flexible settings provide a number of options to choose from to make your store look even better with the Instagram Feed.

The extension functions via the latest Facebook Graph API and gives you an opportunity to show Instagram photos sorted by username. With the Instagram Feed integration with Instagram is now fast and easy.

Installation

1. Unpack the zip file provided into the root folder of your Magento 2 installation.
2. From a command line run:
 - bin/magento module:enable Neko_Core;
 - bin/magento module:enable Neko_Instagram;
 - bin/magento setup:upgrade;
 - bin/magento setup:static-content:deploy.

Magento Compatibility:

Community Edition: 2.1.x - 2.3.x

Enterprise Edition: 2.1.x - 2.3.x

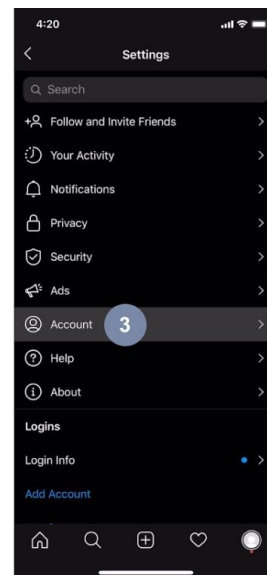

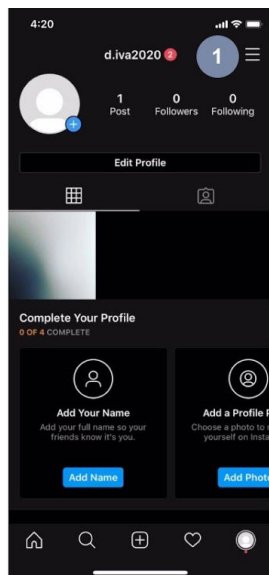

If you experience any issues with the installation, please contact us.

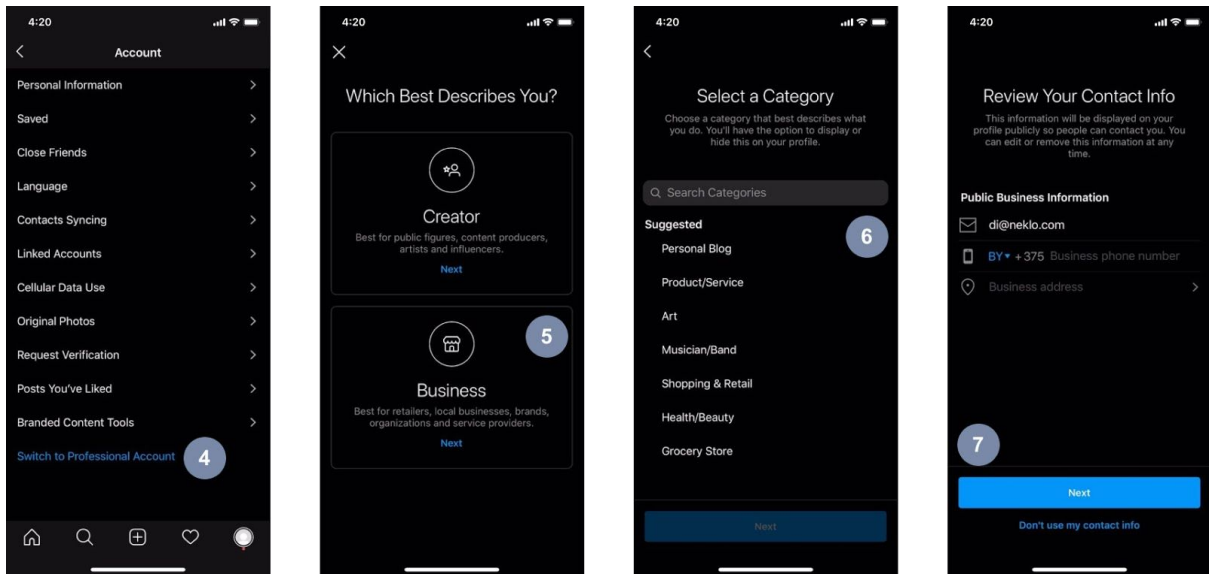

Connect your Instagram Account with Facebook Page

The first thing you need to **set up a professional account on Instagram** and **add a Facebook page to your Instagram Business Account**.

Switching to Professional Account on Instagram:

1. Go to your profile and tap  in the upper right corner.
2. Tap **“Settings”**.
3. Tap **“Account”**.
4. Tap **“Switch to Professional Account”**.
5. Tap **“Business”**.
6. Add details, like your business category and contact information.
7. Tap **“Done”**.

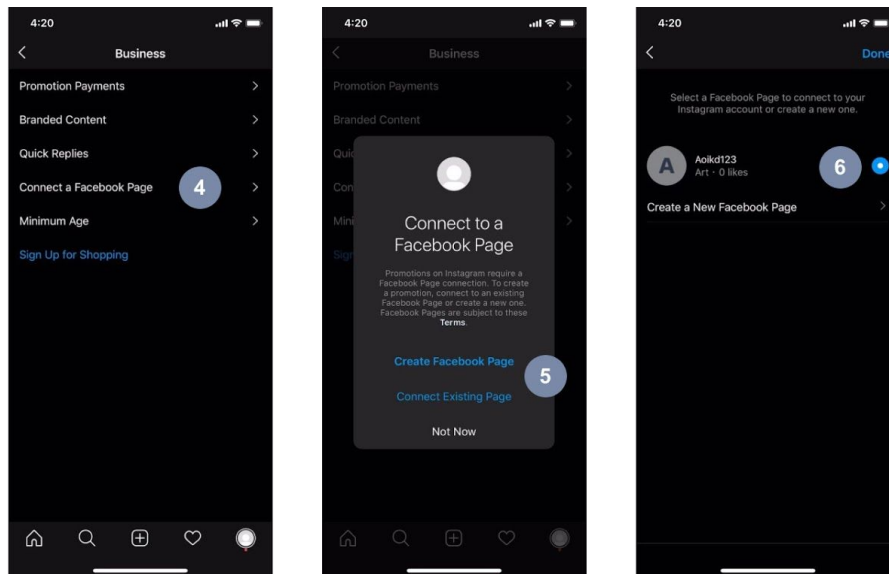

Adding a Facebook Page to your Instagram Business Account

To add or change the Facebook Page that is connected to Instagram account:

1. Go to your profile and tap  in the upper right corner.
2. Tap **“Settings”**.
3. Tap **“Business”**.
4. Tap **“Connect a Facebook Page”**.
5. Choose a Page from your pages that you would like to **connect to** or select **“Create Facebook Page”**.
6. Select a Facebook Page to connect to your Instagram Account and tap **“Done”**.

Note: Your Facebook Account must be verified by phone. To make sure:

- a. Open your facebook account on “**Settings**” page.
- b. Open “**Mobile**” tab.
- c. In case your phone is connected, you will see info like:

Your phones:

XXXXXXXXXXXXXX

Verified

- d. In case your phone isn't connected, please follow Facebook Tips to connect your phone.

Extension General Settings

To get started with the Instagram Feed, please log in to your Magento admin panel and follow these steps:

1. **Go to Stores > Settings > Configuration** and choose **NEKLO > Instagram Feed > General Settings**.
2. In the **General Settings** enable **the Widget** for a display in your store.
3. In **Cache Lifetime** enter for how long you would like your Instagram posts to be saved in cache. Note that once the images are cached, they load faster the next time.
4. Get Access Token.

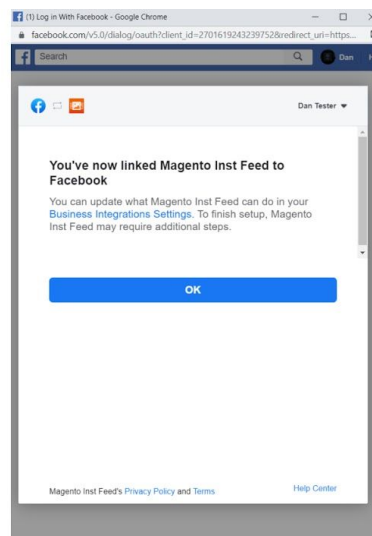

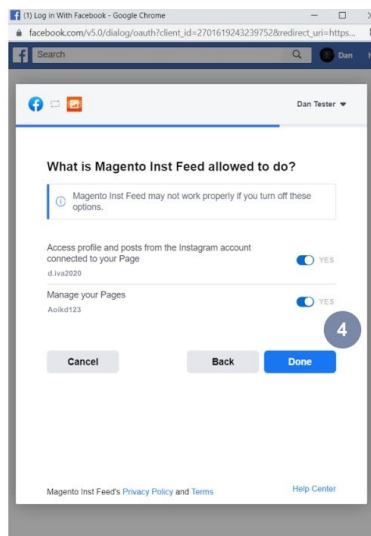

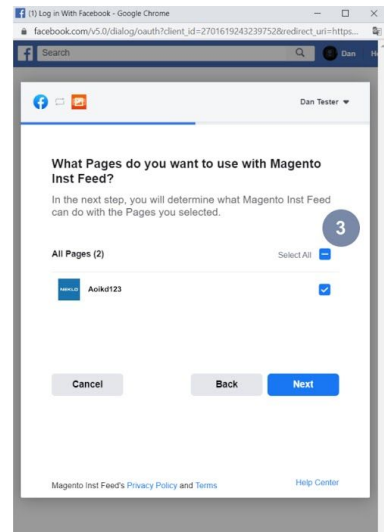

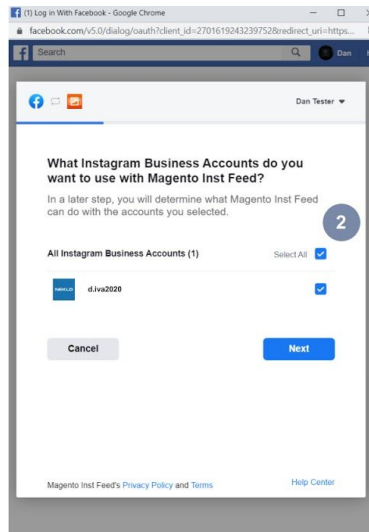

The screenshot shows the 'Configuration' page for 'NEKLO'. The left sidebar contains navigation options: DASHBOARD, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, and FIND PARTNERS. The main content area is titled 'Configuration' and shows 'Scope: Default Config'. A 'Save Config' button is visible in the top right. The 'General Settings' section is expanded, showing the 'Instagram Feed' settings. The 'Is Enabled' dropdown is set to 'No', the 'Cache Lifetime' is set to '3600', and the 'Auth' button is labeled 'Connect'.

Get Access Token

Now you are ready to connect Magento to the Facebook Page in order to get the Access Token. To do so you need to:

1. Log in to Facebook and link your Facebook Account to Magento Inst Feed Facebook Application.
2. Select the Instagram Account which is already connected to your Facebook.
3. Select the Facebook Page that will be used to receive Instagram posts from the linked Instagram Account.
4. Press “Done” to finish the process of Token receiving.

Use the “**Save Config**” button to save your configuration.

Setting Up the Instagram Feed in Your Magento 2 Store

1. To set up the Instagram Feed, in your admin panel, go to **Content > Elements > Widgets** and click the «**Add Widget**» button.

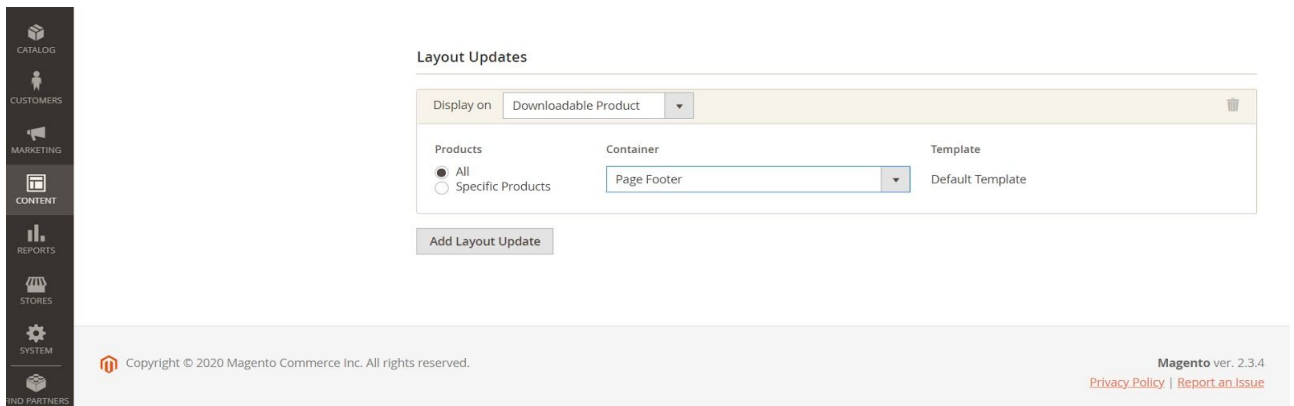

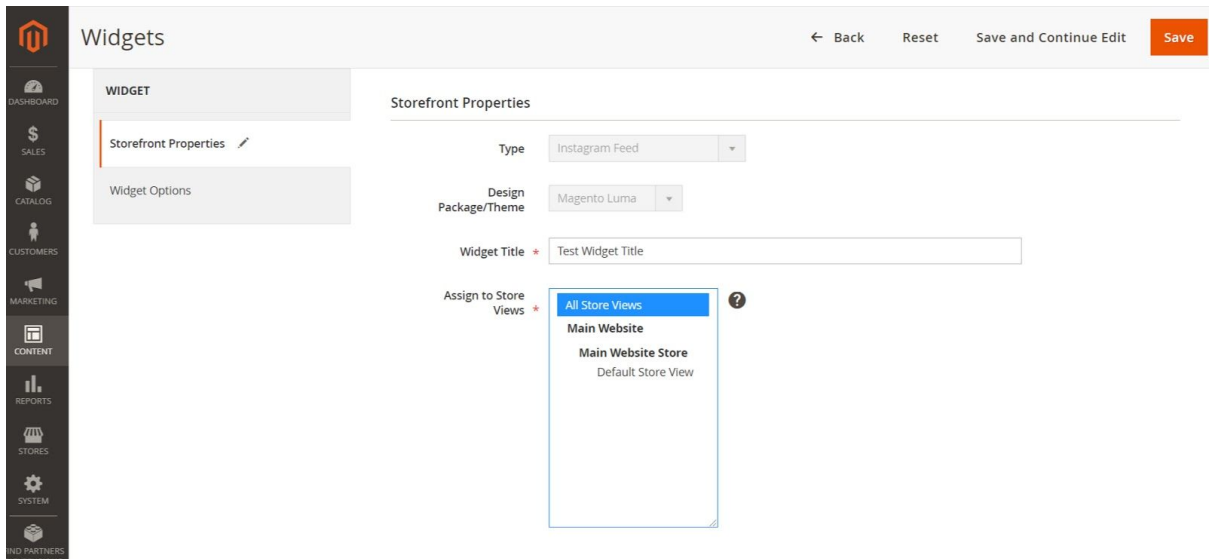

The screenshot shows the 'Widgets' page in the Magento 2 admin panel. The left sidebar contains navigation options: DASHBOARD, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, and FIND PARTNERS. The main content area displays a table of existing widgets. At the top right, there is a search icon, a notification bell with '2', and the user name 'admin'. An orange 'Add Widget' button is located in the top right corner of the widget list area.

Widget ID	Widget	Type	Design Theme	Sort Order
1	Contact us info	CMS Static Block	Magento Luma	0
2	Footer Links	CMS Static Block	Magento Luma	0
3	Sale Left Menu	CMS Static Block	Magento Luma	0
4	Gear Left Menu	CMS Static Block	Magento Luma	0
5	Men's Left Menu	CMS Static Block	Magento Luma	0
6	Women's Left Menu	CMS Static Block	Magento Luma	0
7	What's New Left Menu	CMS Static Block	Magento Luma	0

2. Please select type **Instagram Feed** and the Design Theme you use.

The screenshot shows the 'Settings' page for a new widget in the Magento 2 admin panel. The left sidebar is the same as in the previous screenshot. The main content area shows the 'WIDGET' section with a 'Settings' link. The 'Settings' form has two dropdown menus: 'Type' is set to 'Instagram Feed' and 'Design Theme' is set to 'Magento Luma'. A 'Continue' button is located below the form. At the bottom of the page, there is a footer with the text 'Copyright © 2020 Magento Commerce Inc. All rights reserved.' and 'Magento ver. 2.3.4' with links for 'Privacy Policy' and 'Report an Issue'.

3. At Storefront Properties tab setup **Widget Title**, **Assign to Store Views** and select display on configuration you need at Layout Update block.

4. At the Widget option tab please go through the settings and select the username that will be used to sort the photos for display. To customize your widget, go through the settings and choose the options that work best for you. Choose a Widget Mode (grid or slider), set up details settings, setup grid settings or slider settings according to the configuration you need.
