

# NEKLO Extension Installation Guide for Magento 2

To install NEKLO extension for Magento 2, you need to have FTP/SSH access details.

1. Unpack a zip file you have downloaded.
2. Upload the files from the zip file into the root folder of your Magento 2 installation. Please note that it is advisable to merge the files in the folders, not to replace them. On MacOS, use Transmit option.
3. Connect to your Magento directory with SSH.
4. Run the following commands from the command line:
  - `bin/magento module:enable Neklo_Core`
  - `bin/magento module:enable Neklo_ModuleName`
  - `bin/magento setup:upgrade`
  - `bin/magento setup:static-content:deploy`
5. In your admin panel, go to **System > Cache Management** and flush Magento cache.

Cache Management

Flush Cache Storage **Flush Magento Cache**

Refresh Submit 13 records found

<input type="checkbox"/>	Cache Type	Description	Tags	Status
