

Scroll Up for Magento 2 User Guide

Introduction

Nobody likes scrolling long pages - it takes time and gives nothing in return. Our Scroll Up extension is the best solution for it. It adds a Scroll Up button that returns a user back to the top of the page. It appears when your client goes down the page, so he can jump back anytime.

The extension is preconfigured, so it is ready to use right after installation. You can choose the particular pages, where the button will be displayed, and the color in order to follow the design.

There is also [Scroll Up for Magento 1](#) in our store.

Installation

1. Unpack the zip file provided into the root folder of your Magento 2 installation.
2. From a command line run:

```
bin/magento module:enable Neklo_Core  
bin/magento module:enable Neklo_ScrollToTop  
bin/magento setup:upgrade  
bin/magento setup:static-content:deploy
```

Magento compatibility

Community Edition 2.1.x, 2.2.x
Enterprise Edition 2.1.x, 2.2.x

Configuring the extension

To configure the extension, go to **Stores > Settings > Configuration > Neklo > Scroll To Top Plugin**. Here you will see the following settings:

1. **Is Enabled** turns the extension on and off.
2. **Color** is the code of the desired color. You can also choose one from the color table above the setting.
3. **Position** sets the position of the button on the page.
4. In the **Display On** tab there is the **All Pages** line. If it is Yes, then the button appears on all pages. If No, then you should specify the pages manually with the appeared lines.

The screenshot displays the 'Configuration' page for the 'Neklo' extension. The left sidebar lists various system modules, with 'STORES' selected. The main content area is titled 'Configuration' and includes a 'Store View' dropdown set to 'Default Config' and a 'Save Config' button. The 'NEKLO' section is expanded to show 'Scroll To Top Plugin' settings.

General Settings

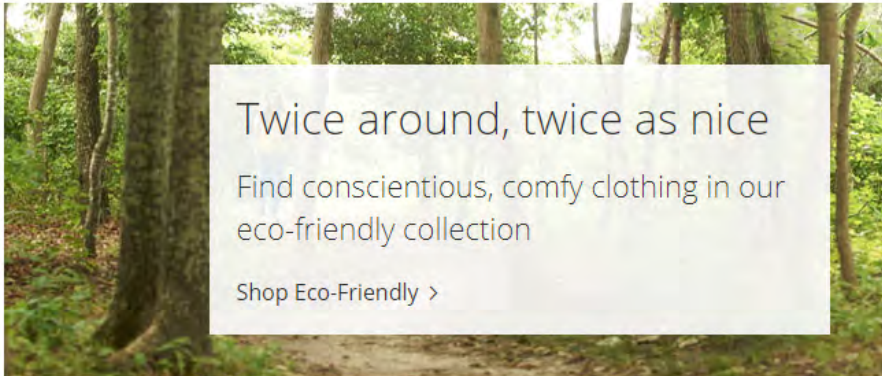

- Is Enabled** [store view]: Yes

Frontend Settings
