

Magento-2 Extension Installation Instructions:

Installing Nextopia's extension for Magento store is quick and easy. There are 2 ways to install our extension:

Note: Customers need to purchase the Nextopia's extension (\$0) from the Magento Marketplace before proceeding further.

1: Using Composer (Recommended)

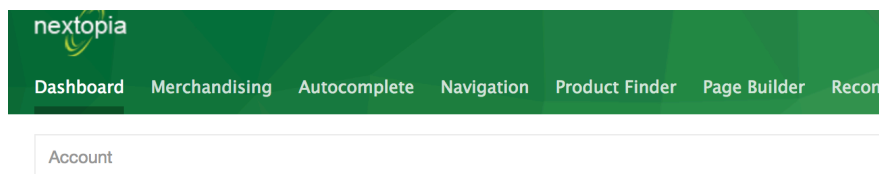

1. Switch to Magento installation directory
`cd $MAGE_INSTALL_DIR/`
2. Run the following commands via composer
 - a. `composer require "nextopia/search"`
 - b. `$PHP_INSTALL_DIR/php $MAGE_INSTALL_DIR/bin/magento module:enable Nextopia_Search`
 - c. `$PHP_INSTALL_DIR/php $MAGE_INSTALL_DIR/bin/magento setup:upgrade`
 - d. `$PHP_INSTALL_DIR/php $MAGE_INSTALL_DIR/bin/magento setup:di:compile`
 - e. `$PHP_INSTALL_DIR/php $MAGE_INSTALL_DIR/bin/magento cache:clean`

2: Manual install

1. Switch to magento installation directory
`cd $MAGE_INSTALL_DIR/`
2. Create the nextopia directory
`mkdir -p $MAGE_INSTALL_DIR/app/code/Nextopia`
3. Run the following commands to activate the extension:
`cp -R $NEXTOPIA_MODULE_SEARCH $MAGE_INSTALL_DIR/app/code/Nextopia`
`$PHP_INSTALL_DIR/php $MAGE_INSTALL_DIR/bin/magento module:enable Nextopia_Search`
`$PHP_INSTALL_DIR/php $MAGE_INSTALL_DIR/bin/magento setup:upgrade`
`$PHP_INSTALL_DIR/php $MAGE_INSTALL_DIR/bin/magento setup:di:compile`
`$PHP_INSTALL_DIR/php $MAGE_INSTALL_DIR/bin/magento cache:clean`

After installing the module, complete the following configurations in the Magento Store

1. Login to the Magento Store
2. Navigate to Stores -> Configuration -> Nextopia -> Search
3. Enabled → Yes
4. Public client Id to use: Get the Client Id from Nextopia's dashboard (Go to Account page → Public Client id). Check out the picture below to get the Public Client id.

Account

Username: shopnextopia.com

Member since: 2017-01-19

Public Client ID: e48a9ad9101168d0d1885119c18452b4 ← **This one**

Private Client ID: c723519ea473ab27a9f6b790e07224b3 (Note: Please keep this ID confidential)
