

# Color Picker For Custom Options for Magento Installation/Configuration Guide

## Installation

1. Back up your store database and web directory.
2. Go to **System** → **Magento Connect** → **Magento Connect Manager** in the admin panel. Log in to Magento Connect Manager with administrator credentials.
3. On Magento connect Manager section under “**Direct package file upload**”, browse for archive file and hit “**Upload**”.

The screenshot shows the Magento Connect Manager interface. At the top, there are tabs for 'Extensions' and 'Settings', and links for 'Return to Admin' and 'Log Out'. The 'Settings' section includes a checked checkbox for 'Put store on the maintenance mode while installing/upgrading/backup creation' and an unchecked checkbox for 'Create Backup' with a dropdown menu set to 'Database'. The 'Install New Extensions' section has a step 1 instruction to search for modules via 'Magento Connect' and a step 2 instruction to paste an extension key into a text field with an 'Install' button. The 'Direct package file upload' section is highlighted with a red box and contains step 1 instructions to download or build a package file, and step 2 instructions to upload a package file, with a 'Browse...' button and an 'Upload' button. The 'Manage Existing Extensions' section at the bottom includes a 'Check for Upgrades' button and a 'Commit Changes' button. At the very bottom, there is a checkbox for 'Clear all sessions after successful install or upgrade:'.

4. Return to website back end, log out and then log in again.

5. Flush Magento Cache under **System** → **Cache Management**
6. Congratulations! You are now ready to use Color Picker for Custom Options extension.

## Configuration

1. Module global configurations are located under **System** → **Configuration** → **Orange35** → **Color Picker Options**.

The screenshot shows the Magento Admin interface. At the top, there is a navigation bar with tabs for Dashboard, Sales, Catalog, Mobile, Customers, Promotions, Newsletter, CMS, Reports, and System (which is currently selected). A 'Get help for this page' link is also present. Below the navigation bar, the left sidebar shows the 'Configuration' menu with various categories like GENERAL, ORANGE35, CATALOG, and CUSTOMERS. The 'Color Picker Options' configuration page is displayed, featuring a 'Save Config' button in the top right corner. The main content area is titled 'Color Picker for Custom Options View' and contains several configuration fields:

- Enable ColorPicker:** Set to 'Yes' with a '[STORE VIEW]' link.
- Swatch Width:** Set to '44' with a help icon and '[STORE VIEW]' link. Description: 'Set the width of the color box for each option inside product page'.
- Swatch Height:** Set to '44' with a help icon and '[STORE VIEW]' link. Description: 'Set the height of the color box for each option inside product page'.
- Show Slider:** Set to 'Yes' with a help icon and '[STORE VIEW]' link. Description: 'Select if you want to enable slider for options on product page'.
- Options Per Slider Page:** Set to '5' with a help icon and '[STORE VIEW]' link. Description: 'Set how many boxes you would like to see on slider page'.
- Show Default Attribute Input:** Set to 'No' with a help icon and '[STORE VIEW]' link. Description: 'Select if you want to see default magento select apart with color swatches'.
- Popup Info Box:** Set to 'Yes' with a help icon and '[STORE VIEW]' link. Description: 'Select if you want to enable info box on mouse hover'.
- Popup Info Width:** Set to '200' with a help icon and '[STORE VIEW]' link. Description: 'Set the width of the popup info box for each option inside product page'.
- Popup Info Height:** Set to '200' with a help icon and '[STORE VIEW]' link. Description: 'Set the height of the popup info box for each option inside product page'.
- Flush Attribute Images Cache:** A button labeled 'Flush Images Cache!' with a '[STORE VIEW]' link. Description: 'Press the button to see the updated Color Picker images on the user end'.

2. After making the changes to Width/Height fields, make sure to press **Flush Images Cache!** button so the system generates new thumbnails with appropriate sizes.
3. On the product edit page, select **Custom Options** tab. Create custom options of the preferred type: Drop Down, Radio Buttons, Checkbox, Multiple Select. Check off the **“Is Colorpicker”** checkbox. You are now able to add images or colors to option values.

**\$60.00**

**Quick Overview**

Authentic Neapolitan pizzas are typically made with tomatoes and Mozzarella cheese. They can be made with ingredients like San Marzano tomatoes, which grow on the volcanic plains to the south of Mount Vesuvius, and mozzarella di bufala Campana, made with the milk from water buffalo raised in the marshlands of Campania and Lazio in a semi-wild state (this mozzarella is protected with its own European protected designation

## Resolving common issues

1. If after installing Color Picker extension, you see a **'404 not found'** message under **System** → **Configuration**, make sure to log out of the website back end and then log in again and see if that resolves the issue.

## Uninstallation

1. Go to **System** → **Magento Connect** → **Magento Connect Manager** in the admin panel. Log in to Magento Connect Manager with administrator credentials.
2. On Magento connect Manager section under "Manage Existing Extensions" find the extension you want to delete. Select the "Uninstall" action in the dropdown and click "Commit Changes"
