
SuperZoom Installation/Configuration Guide

Super Zoom

Installation

1. First of all, back up your store database and web directory. It is wise to perform this procedure before any installation.
2. On your back end, go to **System** → **Magento Connect** → **Magento Connect Manager** and log in to Magento Connect Manager with administrator credentials.
3. Under “Direct package file upload” section, browse for package file and hit “Upload”.

The screenshot displays the Magento Connect Manager interface. At the top, there are tabs for 'Extensions' and 'Settings', and links for 'Return to Admin' and 'Log Out'. The 'Settings' section includes a checkbox for 'Put store on the maintenance mode while installing/upgrading/backup creation' (checked) and a 'Create Backup' dropdown menu set to 'Database'. Below this is the 'Install New Extensions' section with instructions to search for modules via 'Magento Connect' and a text input field for pasting an extension key, followed by an 'Install' button. The 'Direct package file upload' section is highlighted with a red border and contains instructions to download or build a package file, followed by an 'Upload package' button, a 'Browse...' button, and an 'Upload' button. The 'Manage Existing Extensions' section at the bottom includes a 'Check for Upgrades' button and a 'Commit Changes' button. The channel is identified as 'Magento Community Edition'. A checkbox at the bottom right allows for clearing all sessions after a successful install or upgrade.

4. Return to website back end, log out and then log in again.
5. Flush Magento Cache under **System** → **Cache Management**.
6. Congratulations! You are now ready to use **Super Zoom** extension.

Configuration/Usage

Configuring Zoom Options

You can turn Super Zoom extension on or off on the Configuration page. Go to **System** → **Configuration** → **Super Zoom** and turn it on by clicking “Zoom Options” and then “Enable SuperZoom → Yes” in dropdown menu.

The screenshot shows the configuration interface for the Super Zoom extension. On the left is a navigation menu with a 'Configuration' section containing various categories like 'GENERAL', 'Web', 'Design', and 'ORANGE35'. The 'Super Zoom' option is highlighted with a red box. The main content area is titled 'Super Zoom' and includes a 'Zoom Options' sub-section. Under 'Zoom Options', there is a setting for 'Enable SuperZoom' with a dropdown menu currently set to 'No'. The 'Yes' option is highlighted with a blue bar and a red box. A 'Save Config' button is visible in the top right corner of the configuration area.

There are some options you can configure in “Zoom Options”, every option has a tooltip that describes how each option works:

The screenshot displays the configuration page for the Super Zoom extension. On the left is a navigation menu with categories like Configuration, GENERAL, and CATALOG. The main area is titled 'Super Zoom' and contains two sections: 'Zoom Options' and 'PhotoSwipe Options'. Each option includes a dropdown menu, a text input, or a color picker, along with a tooltip icon and a '[STORE VIEW]' link.
