

## Steps to install TAX Exempt Extension for Magento® 2:

- 1) Take Backup of your Web directory and Store Database.
- 2) Download the TAX Exempt Extension from Marketplace
- 3) Upload contents of the TAX Exempt Module to your Store Root dictionary
- 4) The directory structure is as follows:
  - root directory
  - |-- app
  - |--code
  - |-- Oscprofessionals|-- Taxexempt
- 5) In SSH console of your server navigate to your store root folder:  
Cd <store folder path>  
Example: cd /xxx/xxx/xxx/xxx/<Magento-Root>
- 6) Then run the following commands in the same sequence.

### A. On Windows:

- i) php bin/magento module:enable Oscprofessionals\_Taxexempt
- ii) php bin/magento setup:upgrade
- iii) php bin/magento setup:static-content:deploy -f
- iv) php bin/magento indexer:reindex

### B. On Centos:

- i) bin/magento module:enable Oscprofessionals\_TaxExempt
- ii) bin/magento setup:upgrade
- iii) bin/magento setup:static-content:deploy -f
- iv) bin/magento indexer:reindex  
(Set 777 permission to var, pub and generated folders and sub-folders)  
chmod 777 -R var/ pub/ generated/

- 7) Flush Store Cache. Log out from the back-end and log in again.  
Tax Exempt extension for Magento® 2 is installed and ready to use.
