

User Manual for Advanced Shipping module

1. Installation

- Backup your store database and web directory
- Open a terminal and move to Magento root directory
- Run these commands in your terminal

```
# You must be in Magento root directory
composer require owebia/magento2-module-advanced-shipping:^2.8.8

php bin/magento cache:clean
php bin/magento module:enable \
    Owebia_SharedPhpConfig \
    Owebia_AdvancedShipping
php bin/magento setup:upgrade
php bin/magento setup:di:compile

# Only if the store is in production mode
# Deploy static content for each used locale (here for en_US locale only)
php bin/magento setup:static-content:deploy en_US
```

- If you are logged to Magento backend, logout from Magento backend and login again

2. Quick Start

- In Magento backend, go to Stores > Configuration > Sales > Shipping Methods
- Find the configuration block « Advanced Shipping by Owebia » :

The screenshot shows the Magento Configuration interface. On the left is a sidebar menu with categories: DASHBOARD, SALES, PRODUCTS, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, and SYSTEM. The 'SALES' category is expanded, showing sub-items: Sales, Sales Emails, PDF Print-outs, Tax, Checkout, Shipping Settings, Multishipping Settings, and Shipping Methods. The main content area is titled 'Configuration' and shows the 'Advanced Shipping by Owebia' configuration block. At the top right of this block is a 'Save Config' button. The configuration fields include: 'About' (text), 'Enabled' (dropdown set to 'Yes'), 'Title' (text field with 'Shipping'), 'Configuration' (pencil, question mark, and refresh icons), 'Required Fields' (list box containing First Name, Last Name, Company, Street Address, City, Region/State, ZIP/Postal Code, Country, Phone Number, and VAT number), and 'Show Method if Not Applicable' (dropdown set to 'Yes').

- Set « Enabled » to « Yes »
- Set the carrier name or a custom label in the field « Title »
- Click on the pencil icon to edit the configuration

This close-up highlights three specific fields from the configuration page: the 'Title' field containing the text 'Shipping', the 'Configuration' section which includes a yellow pencil icon, a question mark icon, and a refresh icon, and the 'Required Fields' list box which contains 'First Name' and 'Last Name'.

- Write your first shipping method and save

Shipping

```
addMethod('demo', [
    'title' => 'My first shipping method',
    'price' => 10,
]);
```

Save Config to apply changes

- Save config to apply changes

Search, Notifications, Profile (owebia)

Save Config

- Go to Magento frontend
- Add a product to cart
- Click on « View and Edit Cart »
