

## Installation Guide:

1. Install extension from the Magento Marketplace
2. Under System Configuration, you'll find Pepperjam on the left-hand navigation pane. Click to begin Affiliate setup.
3. Select "Yes" to enable Affiliate tracking.
4. Insert your unique Program ID (PID) into the extension. If you do not yet have a PID, click on the "Register Now" link to register for an account.
5. Select "Dynamic", "Itemized", or "Basic".
6. Set export path to a directory accessible via FTP.
7. Place test transaction to confirm installation.
