

# Установка платежного модуля Платон

1. Скопируйте модуль из архива в корень сайта
2. После того как файлы были скопированы, войдите в админку по адресу <https://165.22.77.15/magento2/admin> введя логин и пароль, нажмите кнопку «sign in»

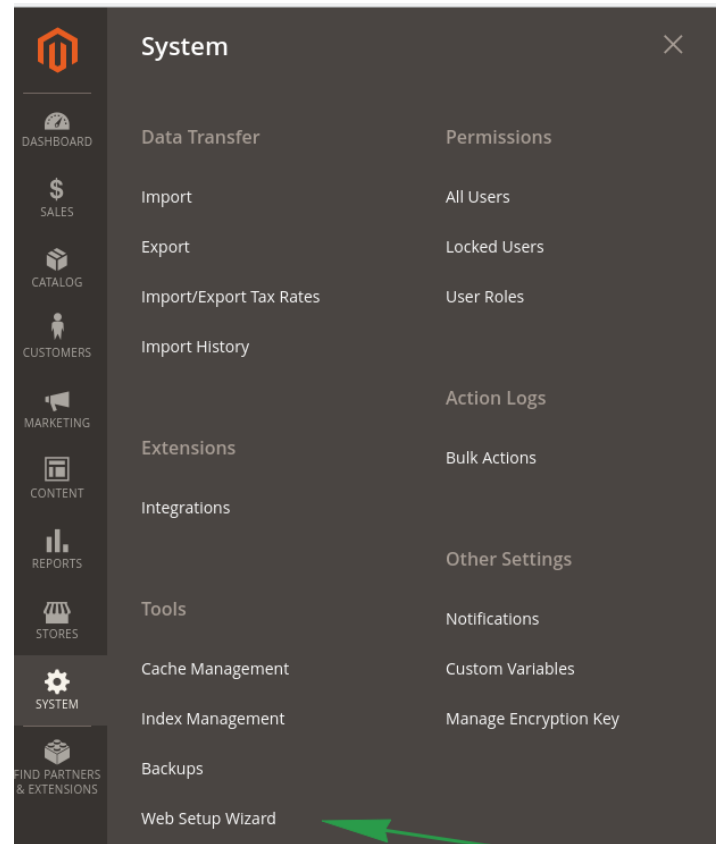

The image shows the Magento 2 admin login interface. At the top is the Magento logo. Below it, the text "Welcome, please sign in" is displayed. There are two input fields: one for the username, which contains the text "admin", and one for the password, which is filled with dots. Below the password field is a blue link that says "Forgot your password?". At the bottom of the form is an orange button labeled "Sign in". Four green arrows are overlaid on the image: one points to the username field, one points to the password field, one points to the "Forgot your password?" link, and one points to the "Sign in" button.

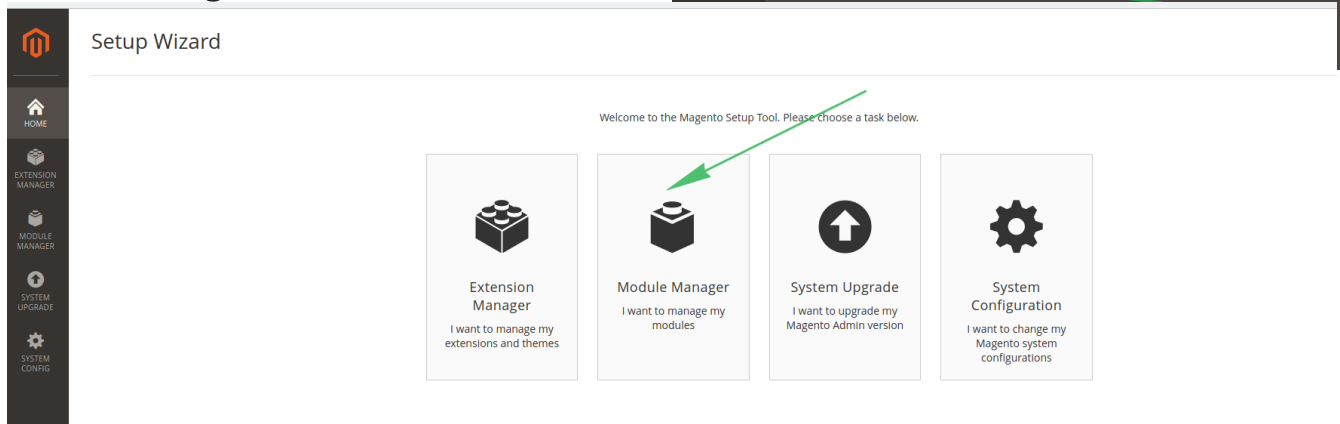

3 нажmite на кнопку System  
справа в низу колонки

The screenshot shows the Magento Admin Dashboard interface. At the top, there is a yellow notification banner that reads "Failed to synchronize data to the Magento Business Intelligence s". Below this is the "Dashboard" header. A "Store View" dropdown menu is set to "All Store Views". The main content area is divided into several sections: "Advanced Reporting" with a sub-header "Gain new insights and take command of your business' performance, us"; "Lifetime Sales" showing a value of "€0.00"; "Average Order" showing a value of "€0.00"; "Last Orders" with the message "We couldn't find any records."; "Last Search Terms" with the message "We couldn't find any records."; and "Top Search Terms" with the message "We couldn't find any records.". On the left side, there is a vertical navigation menu with icons and labels for "DASHBOARD", "SALES", "CATALOG", "CUSTOMERS", "MARKETING", "CONTENT", "REPORTS", "STORES", "SYSTEM", and "FIND PARTNERS & EXTENSIONS". A green arrow points from the "SYSTEM" menu item to the "Last Orders" section in the main content area.

4 в открывшемся окне выберите «Web Setup Wizard»

5 выберите пункт «Module Manager»

6 найдите тут модуль по имени «Platon\_SamplePaymentGateway» (если у вас чистая магенту с большой вероятностью модуль окажется в конце списка)
