

Coupon Import Magento® Extension

User Manual

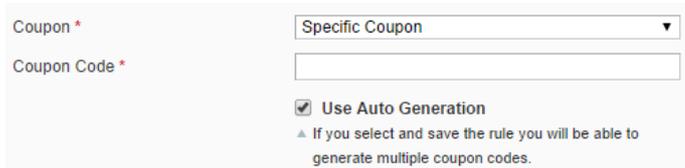

This is the user manual of Magento® Coupon Import v1.0.8 and was last updated on 06-11-2017. To see what this extension can do, go to the **Magento® Coupon Import product page**. You can find the full release info and version history of this extension here.

Importing Coupon Codes in Magento®

To import custom coupon codes in Magento®, navigate to **Promotions > Shopping Cart Price Rules** in the top Admin Panel menu.

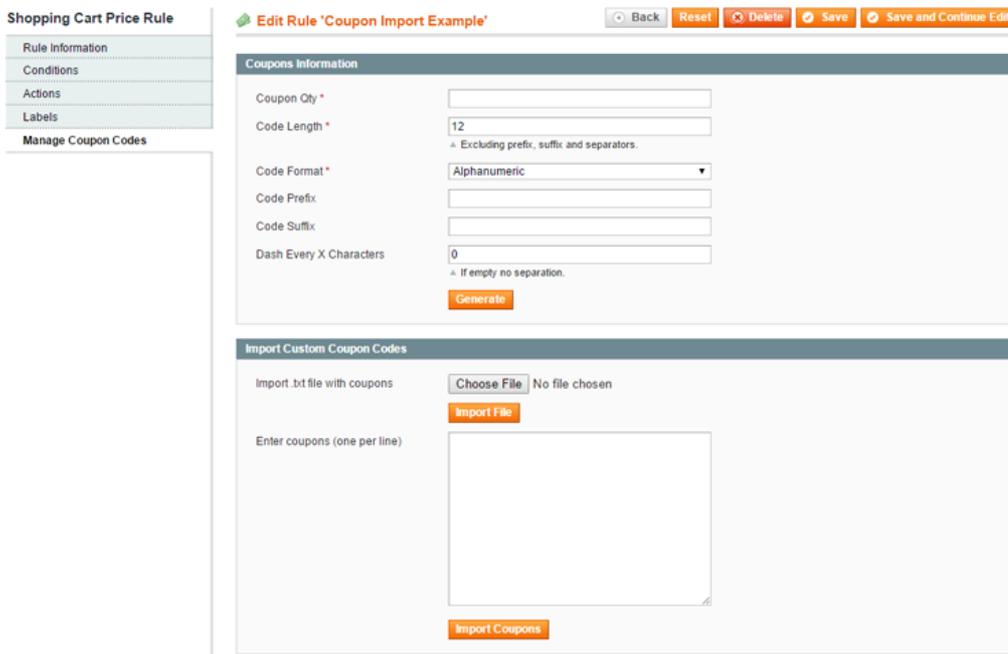

Select a shopping cart price rule from the grid or click the 'Add New Rule' button in the top right corner of the page to create a new rule.

In the Rule Information tab, select 'Specific Coupon' from the 'Coupon' dropdown menu and tick the 'Use Auto Generation' checkbox, then save the shopping cart price rule.

Coupon * Specific Coupon ▼
Coupon Code *
 Use Auto Generation
▲ If you select and save the rule you will be able to generate multiple coupon codes.

After saving the rule, click **Manage Coupon Codes** in the left side menu.

Import Custom Coupon Codes

Import .txt file with coupons Choose File No file chosen
Import File

Enter coupons (one per line)

Import Coupons

Use the **Import Custom Coupon Codes** section to bulk import your coupons from a text file or to upload a custom coupon list.

Bulk Importing Coupon Codes

If you want to import a large amount of custom coupons at once you can upload them using a text (.txt) file.

In order to import a text file, make sure that your coupons are entered in a **list format with one coupon per line**.

Click 'Choose File' to select the text file and then 'Import File' to start the upload.

After the coupons are successfully imported a confirmation message will appear under the Import Custom Coupon Codes section.

The screenshot shows the 'Import Custom Coupon Codes' interface. At the top, there is a header 'Import Custom Coupon Codes'. Below it, there are two main sections: 'Import .txt file with coupons' and 'Enter coupons (one per line)'. In the first section, there is a 'Choose File' button next to the text 'YourCustomCoupons.txt', and an 'Import File' button below it. In the second section, there is a large empty text area. At the bottom of the form, there is an 'Import Coupons' button. Below the form, there is a green confirmation message: 'Successfully imported 2203 coupon codes'.

Importing Custom Coupon Lists

If you need to import only a limited amount of custom coupons, you could simply enter them in the text area or copy-paste them from another source like an Excel sheet or a website.

Make sure you enter or paste the coupon using a **list format with one coupon per line** and click 'Import Coupons' to upload them.

After the coupon codes are successfully imported a confirmation message will appear under the Import Custom Coupon Codes section.

The screenshot shows the 'Import Custom Coupon Codes' interface. At the top, there is a header 'Import Custom Coupon Codes'. Below it, there are two main sections: 'Import .txt file with coupons' and 'Enter coupons (one per line)'. In the first section, there is a 'Choose File' button next to the text 'No file chosen', and an 'Import File' button below it. In the second section, there is a text area containing a list of 12 coupon codes: 'MyCustomCoupon01', 'MyCustomCoupon02', 'MyCustomCoupon03', 'MyCustomCoupon04', 'MyCustomCoupon05', 'MyCustomCoupon06', 'MyCustomCoupon07', 'MyCustomCoupon08', 'MyCustomCoupon09', 'MyCustomCoupon10', 'MyCustomCoupon11', and 'MyCustomCoupon12'. At the bottom of the form, there is an 'Import Coupons' button. Below the form, there is a green confirmation message: 'Successfully imported 12 coupon codes'.

Managing Imported Coupon Codes

Because the Coupon Import extension is AJAX-based, imported coupon codes are instantly added to the overview at the bottom of the Manage Coupon Codes tab without refreshing the page.

You can upload an unlimited amount of custom discount coupons at once, however extremely large amounts might take some time to process, while relatively small amounts (e.g. a couple of thousands) are imported almost instantly.
