Engage & Convert
More Visitors Into Customers

Poptin is a lead capture platform that helps marketers, website owners and digital agencies in engaging visitors and converting them into leads, subscribers and sales.

It works with your website to track visitors' behavior and show them the right message at the right time. You can create customized engaging web and mobile overlays and improve conversion rate.

Installation guide

1. Install and activate Poptin extension on your Magento website
2. Create a free account through the extension signup screen
3. You're good to go! Every popup you create using the Poptin app will appear on your website
